## KEESARAGUTTA

The motif given on the cover page recedes into the Ramalingeswaraswamy temple at Keesara village of Meachal taluk in Tungabaddi district which is a famous pilgrim centre with a glorious past. The temple at a distance of 3 km from the village on a 400 feet high hill peak with a Sivalingam is the place of worship in this village. This village is popularly known as KEESARAGUTTA.

The history and the importance of this pilgrim centre Keesara is buried in hoary past claiming its origin to Threthayuga. It is believed that this is a very sacred place and the abode of Maharshis. Lord Sri Rama visited this place after slaying demon king Ravana. This being a sacred place Lord Sri Rama desired to install 101 Sivalingas to absorb himself of the sin committed by slaying the great Siva Bhakta Ravana and ordered Hanuman to bring 101 lingas from Varanasi the present Banaras. The following legends are in vogue about the installation of the deity Sri Ramalingeswaraswamy. According to the behest of Lord Sri Rama Hanuman went to Varanasi to bring 101 Lingas and could not return before the auspicious moment for installing the same. There is a version that Lord Sri Rama made the Sivalingam with sand and installed it at the auspicious moment. There is another version that Lord Siva appeared before Lord Sri Rama and gave Him a selfmanifested Sivalingam to install it at the auspicious moment. Hanuman returned with 101 Sivalingas from Varanasi after the auspicious moment and disappointed with the installation of the Sivalingam already made by Lord Sri Rama threw out the 101 Lingams brought by Him. To pacify Hanuman Sri Rama assured Him that the hill will be named after Him and pujas will be offered to Him along with the Lingam installed by Him. Kesari is another name to Hanuman. In course of time it became Keesara i.e. the present KEESARAGUTTA. The idol of Goddess Bhavani was installed specially. There are carvings on the stone pillar depicting the first three incarnations of Lord Vishnu viz. Matsya, Kurma and Varaha and Vighneswara and Anjaneya. The most striking feature of the temple is that it faces West.

A few yards away from the main temple there are two other beautiful temples constructed by the Ministers of Tanisha viz. Akkanna and Madanna in which there are no deities. There are stone carvings of Lord Narasimhaswamy in peaceful posture and a panivattam (basement) for a Sivalingam.

Mahasivaratri Uthsavam takes place for 6 days in Sri Ramalingeswaraswamy temple from Magha Bahula Triodasi to Phalguna Suddha Vidiya (February March). Fasting and jagarana are observed. It is of ancient origin and a large number of Hindu devotees local and from the surrounding villages irrespective of caste or creed participate.

a proud privilege and bounden duty to offer my sincere and grateful thanks to Sri V S Verma, I A S, Registrar General and Census Commissioner India and to Sri V P Pandey Joint Registrar General, India for their constant guidance and advice in both administrative and technical matters

In the finalisation of the write up, compilation and processing of data for the volume I have been ably assisted by Sri B Satyanarayana as Deputy Director and as Assistant Director of Census Operations with the assistance of an efficient team led by Smt P Lalitha, Investigator who has gained rich experience and specialised this subject Sri Shyam Deo, Research officer, ably guided the Map Section in the preparation of various maps included in this publication I am thankful to all those officials who have contributed in bringing out this voluminous publication

The following officials who have worked on the present volume of Rangareddi District Census Handbook deserve my thanks for their contribution

## P R E F A C E

District Census Handbook is the most important of the local publications brought out by the Census Organisation. This is a joint venture of the State and Central Governments. The chapter on **History of District Census Handbook** details its history and growth right from the inception of Census in 1872 while the foreword of the Registrar General and Census Commissioner India highlights the scope and significance of the tremendous improvements brought about from time to time since 1951 to 1981 in the presentation of data so as to meet the demands of planning and administrative needs of the Governments and the data users. Needless to say that it is of immense use to planners, administrators, academicians, scholars, researchers, social workers etc.

The restructuring of the format of the Village Directory at the 1981 Census has been done particularly to incorporate the exhaustive data on infrastructure in relation to amenities and land use pattern to meet the needs of micro level and local area planning for rural areas as well as to meet the Minimum Needs and Revised Minimum Needs Programmes of the Planning Commission. It is further intended to help regulating the provision of goods and services and also to enable minimising regional imbalances in the process of development. The formats of the Town Directory have also been modified to meet the requirements of the Minimum Needs programme, by adding statements on civic and other amenities in slums in Class I and Class II towns, columns on Scheduled Castes and Scheduled Tribes population, adult literacy centres, working women's hostels etc. In the process of collection of data for this volume, various State and Central Government departments have extended their kind co-operation. The District Census Handbook comprises two parts, Part A detailed analytical note supported by a number of inset tables based on Census and non Census data in relation to infrastructure and Part B - Village and Town Directories as well as Primary Census Abstract of Villages and Towns.

In the joint venture of the State and Central Governments while the collection, processing including compilation, tabulation and finalisation of the write up have been done by the Directorate of Census Operations, Andhra Pradesh under the ministry of Home Affairs, Government of India, the paper and printing costs are borne by the Government of Andhra Pradesh State. I offer my grateful thanks to Sri R. Rama Murthy, I A S (Retd.) former Chief Secretary of the Government of Andhra Pradesh, Sri M. Appa Rao, Joint Secretary (Retd.) General Administration (Elections) Department for the co-operation and encouragement extended by them at the time of 1981 Census. Grateful thanks are also due to Sri Shravan Kumar, I A S, the present Chief Secretary, Sri B. N. Jaya Simha, I A S, Joint Chief Secretary, General Administration Department and Chief Electoral Officer who is also in charge of Census and to Sri P. V. Gopala Rao, I A S, Deputy Secretary, General Administration Department for extending their kind co-operation. The Director of Printing and Stationery has been helpful in selecting good private printing presses for printing the Handbooks.

My grateful thanks are due to Sri S. S. Jaya Rao, I A S, Director of Census Operations, Andhra Pradesh under whose direction the entire Census Operations Programme was successfully carried out in the State. He has retired from service after superannuation in April, 1984. I am extremely grateful to Sri P. Padmanabha, I A S, former Registrar General and Census Commissioner of India, whose constant guidance and advice were a source of strength and to Dr. N. G. Nag, Deputy Registrar General (Social Studies) who has formulated the contents of the Handbook in detail. Grateful thanks are also due to Dr. B. K. Roy, Deputy Registrar General (Map) under whose guidance the Map Division has scrutinised the district map and the taluk maps evincing very keen interest and to Sri M. M. Dua, senior Research Officer (now Deputy Director), who has scrutinised the data presented here with very minute care. I feel it

## FOREWORD

The district census handbook (DCH) compiled by the Census Organisation on behalf of the State Government is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district administrative statistics, census tables and a village and town directory including PCA. The 1971 DCH series was planned in three parts: Part A related to village and town directory, Part B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series, some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health subcentres and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, 'total population and number of household' has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class I and Class II towns (Statement IV A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part A of the volume contains village and town directory and Part B the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S S Jaya Rao, I A S, Director of Census Operations Andhra Pradesh, Hyderabad on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Dr N G Nag, Deputy Registrar General (Social Studies) of my office, Dr B K Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M M Dua Senior Research Officer. I am thankful to all who have contributed in this project.

## HISTORY

Rangareddi district comprises of erstwhile Hyderabad (rural) district which was formed on 15th August 1978 by carving out some portion of Hyderabad urban taluk and the merger of the rural and urban areas of the remaining taluks of Hyderabad district. Therefore the history of Rangareddi is no other than the history of Hyderabad which is detailed here.

The history of Hyderabad district was inextricably bound up with the rise and fall of various kingdoms which flourished in the Deccan during the medieval and modern times. The Kakatiyas of Warangal were the first important rulers of this part of the country between 1150-1323. Muhammad bin Tughlak who broke the Kakatiya power in 1323 held sway for sometime after which the royal court of the Bahmani Sultans held the Deccan for about two centuries. On their decline the Barid Shahi Kingdom rose to power which for unknown reasons dwindled by about 1609. Then came the famous Qutub Shahis of Golconda (1512-1687) whose rule opened a glorious chapter in the annals of Hyderabad. It was in the reign of the fifth descendant of this dynasty, Muhammad Quli, that the nucleus of the Hyderabad city, renowned for its magnificent mansions, had been laid in 1589. However, towards the close of the 17th century the fortress of Golconda fell to the sword of Aurangzeb (1687) who made it a part and parcel of the Mughal Empire and nominated Chin Kalich Khan (Asaf Jah) as Subedar of the Deccan, who in turn made himself the master of the Deccan after inflicting a signal defeat on Mubarez Khan who was secretly instructed by the Mughal Emperor in the famous battle of Shakarkhedra fought on the 11th October 1724. This battle which was renamed Fathkhera by the Nizam ul Mulk marks the establishment of the Asaf Jahi Dynasty and with it the establishment of an autonomous Deccan. It also marks the end of the Medieval period in the history of the Deccan and the commencement of the Modern period which was identical with the end of the Mughal hegemony and the definite establishment of the Asaf Jahi rule. The State and the dynasty so founded by Asaf Jah I had witnessed many eventful things in the evolution of the Hyderabad State. He also instituted the title of the

Nizam which had become since then the hereditary and dynastic title of the successive rulers of this State and thus he became the founder of the house of the Nizams (1724). Thereafter the district remained a part of the Nizam's Dominions until it became a part of the Indian Union in 1948. It was finally merged in the enlarged State of Andhra Pradesh on the 1st November, 1956 when the Sovereign independent Republic of India implemented the States Reorganisation Act with a view to redrawing the political map of India delimiting and alienating the boundaries of the States so as to hold together the people speaking the same language.

The early history of the Deccan of which the district formed a part is given below.

**Early Hindu Period** In pre-historic times the great Dravidian race occupied Southern India including a major portion of the Deccan Plateau. It is uncertain when the Aryans invaded the Deccan. The empire of Asoka (273-231 B.C.) however seems to have had control over the whole of Berar and a considerable portion of the Deccan plateau. The Andhras were the next kings who ruled the Deccan. They are mentioned in the Asokan inscriptions but their rise to power dates from about 220 B.C. Gradually extending their sway from Krishna delta they soon possessed an empire reaching to Nasik. This dynasty seems to have come to an end in the third century A.D. but the reasons for the collapse are little known. The Pallavas who ruled South of Krishna might have extended their power to this region. The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A.D. and founded an empire spreading east and west across the Peninsula with their capital at Kalyani. Pulakesin II (608-642 A.D.) ruled practically the whole of India south of Narmada river and even came into contact with Harsha Vardhana of Kanauj. Throughout their period of supremacy the Chalukyas were at war with the Pallavas. In the middle of eighth century the Chalukyas were displaced by the Rashtrakutas of Malkhed in Gulbarga district. About 973 A.D., the Chalukyan dynasty was restored and for nearly 200 years maintained its position,

inspite of fierce struggles with the Cholas and Hoyasalas of Dorasamudra. The Chalukya power fell about 1189 A D to the Hoyasalas and Yadavas the latter of whom established themselves at Deogiri. The Yadavas were the last great Hindu rulers of Deccan, for Vijayanagar Kingdom which was founded half a century later after the advent of the Muhammadans, never acquired much sway in the Deccan proper.

**Muhammadan Period** Alla ud din Khilji led the first Muhammadan expedition into the Deccan in 1294 against the Yadava ruler of Deogiri and coerced him into submission. In 1296 he assassinated his own uncle and seized the throne and sent an expedition to Deogiri. His first expedition was despatched in 1303 against the Kakatiya kings of Warangal who had established themselves there since the middle of the 12th century. This having failed he sent a second expedition under Malik Kafur in 1309 which resulted in the submission of the Raja who agreed to pay tribute. Muhammad bin Tughlak conducted a later campaign against Warangal and finally broke the Kakatiya power in 1323. In 1310 Malik Kafur was sent against the Hoyasala Raja of Dorasamudra (Helebid in Mysore). In 1318 when Harpal the Deogiri ruler rebelled he was defeated and put to death and with him the Yadava dynasty ended. When Muhammad bin Tughlak ascended the throne in 1325 at Delhi the Muhammadans were masters of the Deccan from North to South, the Chief Rajas of Telangana acknowledged their sway and paid tribute. He changed the name of Deogiri to Daulatabad and made it his capital. A few years later the Imperial Governors of the Deccan revolted resulting in the establishment of the Bahmani dynasty. Zafar Khan who styled himself as Ala ud din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulbarga he made the latter place his capital and commenced to reign from 1347 A D. The Bahmani Kingdom extended from Berar in the north to the left bank of the Tungabhadra in the south and from Dabal on the west coast to Telangana tracts in the east. After the fall of this dynasty the Barid Shahi dynasty came into power. Amir Barid who assumed sole charge of the affairs of the Bahmani kingdom after the downfall of the Bahmani dynasty had many vicissitudes and constant wars with the rulers of Bijapur and Berar and he died in Daulatabad in 1538. He was succeeded by his son Ali Barid who was the first to assume the title of Shah. In 1565 he

marched along with the other Deccan kings against the Rajas of Vijayanagar and in the memorable battle of Tallikota the Vijayanagar ruler was defeated and his fate sealed. Ali Barid died in 1582 and he was succeeded by three other kings. The Qutub Shahi dynasty next came into prominence. Qutub ul Mulk Sultan Kuli a Turk of noble family, who was Governor of the Golconda province under the Bahmanis took advantage of the distracted state of the kingdom under Muhammad Shah of the Barid Shahi dynasty and declared his independence establishing the Qutub Shahi dynasty which reigned from 1512 to 1687 A D.

When the Mughals invaded the Deccan, the local rulers formed an alliance against them but after defeating the invaders they fell out among themselves enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcomed at Golconda by Abdullah Qutub Shah. In 1635 A D Shah Jahan who had then become the emperor sent a *farman* to Golconda which was well received. Mir Jumla the King's minister appealed to Aurangzeb for help against his master in 1655 A D and this afforded a pretext for Aurangzeb to invade the territory. Hyderabad was plundered but Abdullah sued for peace and paid arrears of tribute. He died in 1674 A D and was succeeded by his nephew Abdul Hasan also called Tana Shah. After the fall of Bijapur in 1686 A D Aurangzeb turned his attention to Golconda which was taken in the following year. Tana Shah was made a prisoner and died in 1704 A D and with him the Qutub Shahi line ended. This dynasty was followed by Asaf Jahi dynasty to which the present Nizams belong. The Asaf Jahi dynasty was founded by Asaf Jah a distinguished General of Aurangzeb a Turkoman by descent. After a long service under the Delhi emperor he was appointed as Subedar or Viceroy of the Deccan in 1713 A D with the title of Nizam ul Mulk which has since become the hereditary title of the family. The Mughal empire at this period was on the verge of decline owing to internal dissensions and attacks from without. Amidst the general confusion Asaf Jah had little difficulty in asserting his independence against the degenerate and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were harassing the west of his newly acquired territory. His independence was the cause of much jealousy at Delhi and the court party secretly instructed

Mubariz Khan Governor of Khandesh to oppose him by force of arms. A battle was fought at Shakarkhelda in the Buldana district of Berar in 1724 A.D. when Mubariz Khan was totally defeated and lost his life. This battle established the independence of Asaf Jah who annexed Berar and fixed his residence at Hyderabad and established his dominions. The Hyderabad district along with the rest of the Telangana came under the control of the Asaf Jahi dynasty.

After the death of Asaf Jah Nazir Jung his second son and Muzaffar Jung his grandson by one of his daughters strove for the succession. At this time the English and the French were contending for supremacy in the East and each of the claimants secured the support of one of these powers. Nazir Jung's cause was espoused by the English while Muzaffar Jung was supported by the French. The latter however fell a prisoner to his uncle but on the assassination of Nazir Jung Muzaffar Jung was proclaimed the sovereign. Dupleix the French Governor became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan Chiefs and the French then selected Salabat Jung a brother of Nazir Jung and son of Asaf Jah as ruler. Ghazi ud Din the eldest son of Asaf Jah who it was alleged had relinquished his claim at first now appeared as a claimant supported by the Marathas but his sudden death put stop to further struggles. The English and the French were then contesting for power and influence in the Deccan but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan the fourth son of Asaf Jah at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761 A.D. and Nizam Ali Khan was proclaimed ruler.

In 1766 A.D. the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in time of war and received 6 lakhs of rupees per annum when no troops were required. The Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D. by which the East India Company and the Nawab of Carnatic engaged to assist the Nizam with troops whenever required by him on payment. In 1790 A.D. war broke out between Tipu Sultan and the British and a treaty of alliance was concluded between the Nizam the Marathas and the British.

Tipu however concluded peace and had to relinquish half of his dominions which was divided among the allies. In 1798 A.D. another treaty was concluded between the Nizam and the British. On the fall of Seringapatnam and the death of Tipu Sultan the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the Peshwas from the treaty. In 1800 a fresh treaty was concluded between the Nizam and the British by which Nizam ceded all the territories which had accrued to him under the treaties of 1792 and 1799 i.e. Cuddapah Kurnool Anantapur and Bellary districts known as the Ceded districts of Madras. Nizam Ali Khan died in 1803 and he was succeeded by his son Sikandar Jah. On the death of Sikandar Jah in 1829 his son Nasir ud Doula succeeded. Nasir ud Doula died in May 1857 and he was succeeded by his son Afzal ud Doula. In 1869 on the death of Afzal ud Doula his son Mir Mahbub Ali Khan Bahadur became the ruler. As he was only three years old then a regency was constituted for the administration of the country with Salar Jung I as Regent and Nawab Shams ul Umara as Co Regent. The British Resident being consulted on all important matters concerning the welfare of the State. On the death of the Co Regent in 1877 his half brother Nawab Vikar ul Umara was appointed as co administrator but he also died in 1881, Sir Salar Jung remaining sole administrator and Regent till his death in 1883. In 1884 Mir Mahbub Ali Khan having attained majority was installed as ruler by Lord Rippon. On the death of Mir Mahbub Ali Khan in 1911 Mir Osman Ali Khan ascended the throne. In 1947 when the country attained independence the princely states were given the choice either to remain independent or to join the Indian Union. The Nizam's Dominions became part of Indian Union in 1948 as a Part B State. In 1956 during the reorganisation of States the Hyderabad State was trifurcated and the nine predominantly Telugu speaking districts of Manbunagar Hyderabad Medak Nizamabad Adilabad, Karimnagar, Warangal Khammam and Nalgonda known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur Gulbarga and Bidar were transferred to Mysore State while the Marathwada comprising the five districts of Aurangabad Osmanabad, Bhir Parbhani, Nanded and portion of

Bidar which is predominantly Marathi speaking was transferred to Maharashtra State. These changes were effected on the 1st November, 1956.

Hyderabad as the State Headquarters district since the heyday of the Nizams rule had occupied a central position both geographically and politically. The district was known for long as the Atraf-i-Balda district meaning 'Suburbs of the City'. It comprised the Sarf-i-Khas Illaqs that were situated around the city of Hyderabad and formed into a district and was placed under a Talukdar subject to the direct control and supervision of the Sarf-i-Khas Secretary. This district plus other

Crown lands spreading all over the dominions constituted the personal property of the Nizam. They came to be regarded as a State within a State and remained territorially unaltered since the turn of the century though numerous changes were noticed in regard to other districts over decades. It was only in the decade 1941-51 that the district had undergone a radical territorial change when both the Atraf-i-Balda district and the district of Baghat were abolished and the Hyderabad district was created. Subsequently, the district passed under the Central Administration (1948) and ceased to be the ruler's personal property. The subsequent changes have been presented in the following pages.

## PHYSICAL ASPECTS

Rangareddi district was formed on 15th August, 1978 by carving out some portions of Hyderabad urban taluk and the merger of the rural and urban areas of the remaining taluks of Hyderabad district. The name of this district was Hyderabad (Rural) in the beginning. It was changed to K V Rangareddi district and to Rangareddi district later on. It was named after the doyen freedom fighter and patriot and later Dy Chief Minister of Andhra Pradesh K V Rangareddi who hailed from Pedamangalaram of Chevella taluk. Approximately Rangareddi district lies between 16°-30' and 18°-20' of north latitudes and 77°-30' and 79° 30' of east longitudes. It is bounded on the north by Medak district, on the south by Mahbubnagar district and on the west by Bidar district of Karnataka State. As per 1981 Census the area of the district is 7 493 sq Kms and it occupies 20th place in respect of area in the state. The district comprises of eleven taluks viz, 1 Medchal 2 Marpally 3 Hayathnagar 4 Ibrahimpatnam 5 Maheswaram 6 Rajendranagar 7 Chevella 8 Vicarabad 9 Tandur 10 Pargi, and 11 Vallabhnagar.

**Flora** The climate of Rangareddi district is relatively moderate. It is generally hot and dry. Consequently the flora of the district exhibits xerophytic adaptations. About 42.5 percent of the land in the district is under cultivation. The uncultivated patches, the hills and slopes are generally covered by some sort of growth. Occurrences of *Acacia arabica* (Nallathumma), *Acacia Sundra* (Sandra), *Borassus flabellifer* (Pedda Ita) and *Phoenix sylvestris* (Ita) are very common. Groves of mango, tamarind and guava are commonly found in and around the villages. *Ficus bengalensis* (Marri) is a very common roadside tree. *Azadirachta indica* (Vepa), *Bombax malabaricum* (Burgu), *Moringa oleifera* (Munaga), *Melina Azadirachta* (Vepa), *Feronia Elephantum* (Velaga), *Aegle Marmelos* (Maredu) and *Anona Squamosa* (Sethaphalam) are commonly seen in villages.

**Forests** Rangareddi district cannot boast of any important timber yielding forests because of the low rainfall and comparatively inferior soil conditions aggravated by the ever increasing biotic interference. The soils have very little plant nutrients and so they support only very inferior type of forests. The forest area in this district covers about 9.7 percent of the total geographical area of the district as against the minimum of 33½ percent desirable according to the National Forest Policy. The forests are of crop type where the trees are generally of stunted growth and malformed. Natural regeneration is practically absent on account of the unchecked grazing by herds of cattle, goats and sheep and frequent occurrence of fires. The forests of the district are broadly classified into forest types based on the All India classification. It is broadly classified as southern tropical Dry Deciduous Forests.

**Climate** The summer season starts in the district by about middle of March and continues till the first week of June. The heat in April and May is very severe. The south west monsoon season begins in the first week of June and extends up to the end of September. December to February is the cool season in this district. The average annual rainfall in the district is 802.1 mm\*.

**Fauna** Before the merger of the Nizam's Dominions with the Indian Union, these forests were the preserve of the members of the royal family and the high nobility. They were also the abode of every species of big and small game. But all this was of the past. The forests receded and they formed small pockets in the midst of habitations. Even these are few and far between, and traversed by cart tracks and roads. These conditions are not conducive to the growth of wild life. Black-buck is found in small numbers in some of the interior and larger of the forest blocks at Rangampalli, Tirunala-pur, Rasam, Anantagiri, and Gokafasalwad. Wild boar is found all over the forests in small numbers. The peacock and the jungle fowl are found in these forest blocks.

Source: Information collected from the office of District Gazetteers, Andhra Pradesh and from the District Census Handbook, 1961, Census, Hyderabad District.

\* Monthly and Annual Rainfall taken for the year 1978. Published in Statistical Supplement to Part II of Andhra Pradesh Gazette, Hyderabad, Dated 15-1-1981.

**Hills** The district is mostly hilly and sparsely wooded. The general slope of the land is from west to east and south-east. The Rajkonda hill range runs in a south-eastern direction upto Devarakonda Mandal in Nalgonda district. The Anantagiri range traverses the district from the south in Mahbubnagar district to the north upto Dharur. A large portion of this range is composed of high grade laterite. Isolated granite hills are also found here and there.

**Rivers** The chief river of the district is the Musi which rises in the Anantagiri hills near Sivareddipet village (Vicarabad Revenue Mandal). It flows almost due east passing through the middle of Hyderabad City into Nalgonda district where it joins the Krishna river near Vadapalle. A reservoir called the Osmansagar across the Musi and another called

the Himayathsagar across the Musi its tributary situated at a distance of 19.51 Kms and 9.66 Kms respectively supply drinking water to Hyderabad city. Another river called the Kagna rises in the former Vicarabad taluk (Mandal) and it drains a number of villages in the erstwhile Vicarabad and Tandur Taluks.

**Changes in Administrative Units and its component parts** As already explained Rangareddi district is the new name given to erstwhile Hyderabad (rural) district which was formed in 1978 and a few taluks have undergone jurisdictional changes by 1981 Census. For convenience the jurisdictional changes in the district during the decade are presented in the following statement.

STATEMENT SHOWING THE FORMATION OF NEW TALUKS AND NUMBER OF VILLAGES IN THE OLD AND EXISTING TALUKS OF RANGAREDDI DISTRICT IN 1971 AND 1981 CENSUSES

1 The district Geographical Area figures are as supplied by surveyor General India

2 The total of the area figures of taluks will not tally with the district area figures because the former represents land use area and are derived from the figures Supplied by the State Survey Department

3 Villages shown under column 5 do not include the villages under column 8

## MAJOR CHARACTERISTICS

**Irrigation** There are no major irrigation projects in the district. The only medium irrigation projects are the Jutpalle project in Tandur Taluk, the Kotpallivagu project in (Peddesul R M). The prominent irrigation tanks in the district are the Narayan Rao Malwa in Peerzadiguda in Hayathnagar Taluk and Laxminarayana Cheruvu in Edulabad in Hayathnagar Taluk, large tank of Shamirpet in Medchal Taluk and large tank of Ibrahimpatnam and Raviriyal tank of Raviriyal in Maheswaram Taluk.

In 1981-82 the irrigation sources consisted of five canals taking off from the above projects, 29 tubewells, 24,424 other wells, 1,874 tanks and 3,336 oil engines. Of these tanks, 252 have an ayacut of more than 100 acres.

The area irrigated under canal system is only 5,191 hectares, of which 842 hectares are under the Jutpalle project, 3,277 hectares under the Kotpallivagu project and 1,071 hectares under the Laknapur project. Of the total net irrigated area of an ayacut of 28,249 hectares is under other wells, 21,122 hectares under tanks, 2,790 hectares under canals, 2,463 hectares under other sources and 147 hectares under tube wells.

The major soils of this district may be categorized into red earths comprising Loamy sands (dubha), Sandy loams (Chalaka) and Sandy clay loams. The red earths cover over 70 percent of the area, while the red or black soil comprising clay loams, clays and silty clays cover over 20 percent. The remaining 10 percent of the area is covered by mixed soils. The red loamy sand, which occurs on strongly sloping terrain, is found to a large extent in Medchal, Rajendranagar, Hayathnagar and Ibrahimpatnam blocks.

The following table indicates the type of soils found in the district.

| Sl No | Name of the block | Black Soils | Red/Mixed soils |
|-------|-------------------|-------------|-----------------|
| 1     | Rajendranagar     |             | 100             |
| 2     | Hayathnagar       |             | 100             |
| 3     | Medchal           | 1           | 99              |
| 4     | Ibrahimpatnam     | 27          | 73              |
| 5     | Maheswaram        | 27          | 73              |
| 6     | Chevela           | 50          | 50              |
| 7     | Pargi             | 48          | 52              |
| 8     | Tandur            | 67          | 33              |
| 9     | Vicarabad         | 20          | 80              |
| 10    | Marpally          | 20          | 80              |

The district is having two main cropping seasons, namely Kharif season from June to September and Rabi from October to March. The paddy cultivated during kharif is known as Abi crop and during Rabi season as Tabi crop. The paddy grown under semidry conditions in summer is called as kathera paddy. Preliminary preparations of the soil for kharif season start from the third or fourth week of May after receipt of summer showers and that of Rabi during the month of October. Seedlings of chillies and vegetables like brinjal, tomato, cabbage and cauliflower are also raised at about the same period and transplanted in the fields. The seeds for the crops like Jowar, ragi, groundnut, castor and pulses are, however, sown directly in the fields.

The account on agricultural extension work as claimed is incomplete without the mention of the Andhra Pradesh Agricultural University and its allied institutions like the Agricultural College and Agricultural Research Institute.

The Andhra Pradesh Agricultural University, established in 1964 is producing graduates and post graduates in Agriculture and allied fields. The university has State-wide responsibility for research in agriculture animal husbandry, fisheries and farm forestry. It carried out its research activity through a network of 30 research stations. The Agricultural Research Institute at Rajendranagar is a premier research centre in the University serving the state in general and Telangana in particular including the Rangareddi district. The research institutes under its control cater to the general specific needs of the State.

**Animal Husbandry** Rangareddi district occupies a prominent position in livestock and poultry wealth. Factors like marketing facilities, high demand for milk and milk products and eggs and chicken in the twin cities gave greater impetus for the development of livestock and poultry. According to the livestock census of 1983, the livestock population was 10 87 894. Of these, bovines accounted for 6 79 860. Of them cattle accounted for 4 74 532 and buffaloes 2 05 328. The different cross breeds as on 31st March 1983 are as follows

|                      |       |
|----------------------|-------|
| Jersey cross - breed | 4 710 |
| Holstein Freisen C B | 195   |
| Deoni                | 1,831 |
| Granded Murrah       | 5 972 |

The remaining cattle and buffaloes are of nondescript type. At the end of March 1985 sheep constitute 1 87 lakhs, goats 2 04 lakhs, horses 777, mules 51, asses 2 617, pigs 12 490 and poultry 45 45 lakhs. The number of cows and buffaloes are 2 21 lakhs and 2 12 lakhs, respectively while the breedable cows and buffaloes are 81 447 and 73,113 respectively. The livestock population of the district according to the livestock Census of 1983 is as follows

|              |             |
|--------------|-------------|
| White Cattle | 4 74 lakhs  |
| Black Cattle | 2 05 lakhs  |
| Sheep        | 1 87 lakhs  |
| Goats        | 2 04 lakhs  |
| Poultry      | 45 45 lakhs |
| Others       | 0 70 lakhs  |

Rangareddi district occupies a prominent place in the State with 45 45 lakhs of poultry. The poultry farms in the district mostly located around the twin cities, are regular suppliers of eggs and poultry meet not only to the twin cities but also to Bombay.

**Fisheries** Rangareddi district has no sea coast or major rivers for fishing activities. There are about 1,350 on land sources in the district. The Musi river with sewage water, 7 reservoirs and a few tanks which are perennial are some of the sources. Most of the other sources are irrigation tanks viz, Lakhnapur Reservoir in Pargi Block, Jutpalle Reservoir in Tandur Block and Kotpalle Reservoir in Vicarabad Block.

There are 177 long seasonal tanks, 8 reservoirs, 6 Musi river segments and 11 Katlwas under the control of the Fisheries Department, while the other sources including irrigation tanks are under the control of the Gram Panchayats. The Musi river is not auctioned for fishing purpose. Every body is free to catch fish in it. Fish culture and fish farming are the first and the foremost items in the development of fish. There are two fish seed farms in the district one at Medchal and the other at Sriguda.

**Forestry** The forest area in the district is 72 795 32 hectares against the geographical area of 7 56 289 33 hectares. Thus the forests occupy 9 6 percent of the geographical area. It is much less than 33 1/3 percent fixed as the desirable minimum in the National Forest policy of 1952. It is also much less when compared to the State percentage of 23 17. The role of forests in the economic development of the district is therefore not significant. The forests of the district are mostly thorny shrubs. The species that occur in these forests include Teak, Nallamaddi, Chirumanu, Eppa, Bijasal, Chenangi, Sahi, Satin and Sandal. The important forest products obtained from the forests of this district include firewood, small timber, beedi leaves, fodder grass, mohwa flower, Mohwa seed, Karanj seed, amla, marking nut, Chironji, nirmoli, Sitaphal, honey, wax and Rosa grass. In a predominantly agricultural district like Rangareddi, the average ryot and the agricultural labourer depend a great deal on the forests for agricultural implements, grazing of cattle and other livestock and green leaves for manuring. As the forests of this district are unable to meet the local requirements, the people of this district purchase wood from the twin cities of Hyderabad and Secunderabad. The forests and the scattered trees abutting the twin cities are

being destroyed due to industrialisation, development of housing colonies, grazing and browsing of cattle, sheep and goats, indiscriminate felling of trees and shrubs to meet the demand for fuel and timber, and frequent burning of forests by the graziers to induce flesh of grass to grow in summer

The forests provide employment to the working class during slack agricultural seasons in forest operations like raising nurseries, plantation and forest based cottage industries like basket making, rope making, making of platters mat-weaving and collecting beedi leaves

Source Chief Planning Officer Rangareddi District

**Power Supply** There was a great demand for power for domestic and the upcoming industries in and around Hyderabad. After the formation of Andhra Pradesh in 1956, the capacity of the existing sub stations was raised and distribution lines extended. The establishment of large scale industries like the Indian Drugs and pharmaceuticals limited,

Hindustan Machine Tools, Hindustan Aeronautics Limited, Hindustan Cabels Limited, Electronics Corporation of India Limited Indian Detonators Limited Hyderabad Allwyn Metal works, Usha works and others necessitated the setting up of another 132 KV ring main and sub-stations of 33KV with capacities varying from 12 to 15 MVA near the Allwyn Metal works Indian Drugs and Pharmaceuticals Limited, Hindustan Machine Tools at Ibrahimbagh, Moula Ali and Uppal respectively. These industries use the HT/LT services to the extent of 5,938. There are two divisions of the Electricity Board to look after the area covered by Rangareddi district and a part of the urban area.

There are 949 inhabited villages in Rangareddi district and out of which 788 villages are electrified as per the information furnished in village directory achieving 83.93 percent electrification. The schemes sanctioned by the Rural Electrification Corporation were meant for electrification of the new villages and land development based on area approach. The special project for Agriculture (SPA) schemes sanctioned by it are for intensive energisation of the agricultural pumpsets. High tension sub-stations are located in the district at Ramachandrapuram Shapur Nagar, Moula Ali Chavhanagutta and Erragadda, besides 24 sub stations of 33/11 kV. All Revenue Mandals and blocks are covered by the Rural Electrification Corporation to provide connections to agriculture services and Industrial Development Areas (IDA). Being close to the twin cities, there is heavy demand for electric supply in the newly coming up colonies. Low voltage packets are, therefore identified periodically and additional distribution transformers are set up specially in the colonies.

**Minerals** Quartz is the principal mineral of this district and its estimated reserve is about 5 million tonnes. Deposits of this mineral are in Kukatpalle Hydernagar, Bahadurpalle and Himayath sagar. Limestone is found in plenty in Tandur block and it is sold locally. The estimated reserve of the cement grade limestone in the block is about 173 million tonnes. Further details of the various types of minerals available in the district are given in the following statement

VARIOUS TYPES OF MINERALS IN  
RANGAREDDI DISTRICT

| Sl No                      | Block                               | Mineral   | Location (villages)  |

| 7                          | Chevella                            | Fuller s earth  | Moincheruvu Alur   |
| 8                          | Vicarabad                           | Limestone<br>Fuller s earth<br>Laterite   | Salbathapur<br>Madvapaur<br>Aliapur Phulmamidi   |
| Estimated Mineral Deposits |                                     |   |  |
|                            | Limestone (Cement grade)            | 173   | Million tonnes   |
|                            | Limestone (Shahbad grade)           | 20 90   |  |
|                            | Fuller s earth                      | 0 15  |  |
|                            | Quartz                              | 5   |  |
|                            | Felspar                             | 0 13  |  |
|                            | Granite (building stone/road metal) |   | Abundant   |

There is a concentration of slab polishing units in Tandur and its surrounding. There are also certain polishing units functioning at Chevella and Rajendra nagar blocks due to their proximity to Hyderabad city. Quartz deposits are being exploited for industrial purpose by calcination and pulverising, and 5 units are proposed to be started at Rajendranagar, Hayathnagar, Ibrahimpatnam and Medchal areas in small scale sector and a medium sized glass factory in Medchal. Similarly Fuller s earth is being exploited for industrial purpose. Five units, one each at Tandur, Vicarabad, Jeedimetla and two at Nacharam are exploiting this mineral.

Cement grade limestone has not yet been exploited in the district. Limestone mixed i.e. both high grade and medium grade limestone is available. The percentage of calcium carbonate in high grade is about 90 percent. Two major cement plants in the offing have proposed to make use of both the grades by blending suitably.

**Industries** Rangareddi district has the largest number of agro based industries. Further the district ranks first in respect of chemical and allied industries in the state. The largest number of engineering units in the state are found only in Rangareddi district. A brief account of the working of the various large and medium scale industries in the district is presented below.

There are 34 engineering industries in the Rangareddi district, of which six are in public sector and twenty eight in private sector.

The Hindustan Machine Tools popularly known as H M T a Government of India undertaking opened a machine tools division in this district in 1965. It has a capital outlay of Rs 10 65 crores and is located on the Narsapur Road. The products of this unit manufactured in collaboration with some world famous companies include special purpose machines, blowing machines, milling machines and automatic lathes. A separate press division was setup in 1971 for manufacturing hydraulic and mechanical presses, press balls, joint presses and haulers (mining machinery) at a cost of Rs 5 crores. It also established a lamp division consisting of electric bulbs making machinery section, lamp factory, glass factory, component factory at an estimated cost of Rs 10 crores in 1974. It received a licence to manufacture fluorescent lamps in 1979. It has also set up in 1981 the Central Metal Forming Institute at the adjacent complex. 3 950 persons are employed in all the divisions of the factory. The products enjoy external market in addition to local demand.

The Indo-Nippon Precision Bearings limited is the only bearings manufacturing company in the public sector. It was established in Moula Ali in 1965 with a capital outlay of Rs 9 35 crores and it started production in 1970 as a subsidiary of the Andhra Pradesh Industrial Development Corporation manufacturing ball bearings and cylindrical roll bearings under the brand name of Koyo-India. The brand name has been changed to Indo Nippon Precision.

Bearings in 1979 consequent on the expiry of the agreement with Koyo Seiko Limited. The name of the company was changed to Hyderabad Bearings Limited with effect from December 1981. A total number of 973 persons are employed in this company.

The Republic Forge company limited a State Government undertaking was established in 1957 with a capital of Rs 3.35 crores at Moula Ali. It went into regular production in early 1968. It has been set up in technical collaboration with M/s Sari Renault Engineering of Paris, a French Government undertaking. About 865 persons are employed in it. The production of the concern is 9,000 tonnes of steel forgings spring, steel clips and clamps per annum. The products of the company are sold in Hyderabad and in Maharashtra, Tamil Nadu, Karnataka, Kerala and Uttar Pradesh.

The Vetjan-Hydrar (P) Limited, established at Balanagar and incorporated in 1965, went into production during 1967. It manufactures pneumatic and hydraulic equipment. It has a capital investment of Rs 253 lakhs and employ 302 persons. The production of this company as at the end of March 1984 was worth Rs 1.38 crores. The company also promoted another company at Patancheru in Medak district known as M/s Denison Hydraulics India Limited.

The Hyderabad Allwyn Limited formerly known as the Hyderabad Allwyn Metal works limited was established in 1942 at Sanathnagar by the then Nizam's Government. It was managed by the Birlas for over 10 years. In 1969, it was taken over by the Government of Andhra Pradesh. It has a total investment of Rs 41.20 crores and provides employment to about 5,100 persons. Its main products are refrigerators, water coolers, washing machines, L.P.G. Cylinders, domestic and office furniture, industrial sewing machines, bus bodies and trailers, watches and scooters.

The Krishna Engineering (P) Limited established in 1960 at Sanathnagar has a total capital investment of Rs 52 lakhs. Its main products are diesel engines and power tillers. It provides employment to 400 persons.

Besides these, there are 28 other engineering units, viz (1) Shri Ram Refrigeration Industries Limited (2) SIFCO Limited (3) T I Machines (P) Limited (4) Narne Tulaman Manufacturing (P) Limited all at Balanagar (5) Derco Cooling Coils Limited (6) L D Steels Limited (7) Diagram Forgings (P) Limited (8) United Auto Tractors Limited, (9) Poddar Projects Limited (Ingot Casting and Re rolling Mill) (10) Delhi Tubes (P) Limited, (11) Universal wires limited, all at Nacharam (12) M/s Verna Containers Limited (13) Larevin Engineers (P) Limited (14) R G Foundry Forge Limited all at Jeedimetla, (15) Ductron castings Limited (16) Galada continuous Castings Limited, (17) Torsion products limited (18) Hyderabad Tools (P) Limited, all at Uppal (19) Southern Steel Limited (20) The Andhra Foundry and Machine Company Limited (21) Asian Steel Industries Limited all at Moula Ali (22) M/s Engine Valves Limited in the Industrial Estate at Medchal (23) Mysore Structurals Limited, at Nafeezpet (24) The Aluminium Industries Limited, at Lingampalle (25) Mishra Dhatu Nigam Limited (MIDHANI) (26) Bharat Dynamics Limited, both at Kanchanbagh (27) Jindal Steel Tubes Limited on Gandipet Road and (28) M/s Indo Swing Limited on Narsapur Road.

**Drugs and Pharmaceuticals** There are five major concerns in the district that manufacture drugs and pharmaceuticals. The Indian Drugs & Pharmaceuticals Limited, popularly known as IDPL, a Government of India Company, established a unit at Balanagar in 1961. It went into production in 1968 and achieved the installed capacity by 1972. It is considered to be the biggest and most sophisticated of its kind in Asia. It took up the manufacture of 16 basic drugs to begin with and subsequently 24 more were added. Besides drugs, it also manufactures drug intermediates and medicines. It has an authorised capital of Rs 2,143 lakhs and 5,357 workers are employed in this company. The company is having a colony of about 850 residential quarters for its workers. The other companies are (1) Warner Hindustan Limited at Uppal, (2) M/s Uni-Sankyo Limited at Gaganpahad, (3) M/s Uniloid Limited at Nacharam and (4) Indian Immunologicals at Gachibowli. These units manufacture formulations, bulk drugs, foot and mouth vaccine etc. The total capital investment of the concerns is Rs 2,554 lakhs and these are providing employment to 1,130 persons.

**Electrical and Electronics Industries** The electrical and electronics industry takes the place next to engineering industry in this district. Rangareddi district has three major public sector undertakings viz Hindustan Aeronautics Limited (HAL), Electronics Corporation of India Limited (ECIL) and Hindustan Cables Limited (HCL). A brief account of these is given below.

The Hindustan Aeronautics Limited (Electronics) established in 1965 in public sector at Balanagar with a capital investment of Rs 19.95 crores, is a Government of India venture. It manufactures Arsonic equipment, grand radar, Naval equipment, etc. The products manufactured in this unit are supplied to Indian Air Force, Army, Navy, Police Department and Railway. About 3,200 employees are working in this concern.

The Electronics Corporation of India Limited was set up by the Department of Atomic Energy, Government of India, in 1967 with an authorised capital of Rs 33.95 crores at Cherlapalle. The production programme extends over 250 products covering the technology groups of control systems, electronic instruments and electronic equipments like T.V. Sets and Computers. About 3,000 skilled and semi-skilled workers, and 1,000 unskilled workers are employed in this organisation. The department of Atomic Energy has constructed about 900 Quarters for the staff of ECIL and NFC and allotted 560 houses to the staff of ECIL.

The Hindustan Cables Limited (HCL) is a Government of India undertaking. The factory, which was established in 1972 at Cherlapalle, went into production in 1974. Keeping in view the modern technology, a wide variety of cables are manufactured in this concern. The capital investment of the factory is Rs 5.23 crores. About 1,200 persons are employed in this unit. The annual production capacity of the concern is put telephone cables of 7,89,000 CKM and switch board wires of 66,000 CKM.

The Andhra Pradesh Electrical Equipment Corporation, a public sector undertaking, was started in Sanathnagar in 1963 for the manufacture of various types of meters. It has a capital investment of

Rs 3.39 crores and provides employment to 921 persons. The other prominent company is the Thana Electric Supply Company Limited, at Sanathnagar. Its products include various types of power transformers, synthetic liquid electrical steel stampings and laminators for captive consumption. Its capital investment is Rs 80 lakhs. About 80 persons work in this company.

**Textile Industries** Spinning and weaving is one of the prominent medium scale industries in the district. There are three spinning, weaving and textile mills in the district. They are (1) Penguin Textiles Limited at Tarnaka, (2) Telangana Spinning and weaving mills at Balanagar and (3) Sanghi Textiles processors (Private) Limited at Omerkhan Daira, Koheda. Cotton Yarn of different counts is manufactured in these mills. The total capital investment of these units is Rs 434 lakhs and persons employed are 1,060.

**Leather Industries** The Hyderabad Tanneries Limited is the only leather industrial unit worth the name in the district, situated at Darga Hussain Shahwal. It was transferred by the Government to the Leather Industries Development Corporation of Andhra Pradesh (LIDCAP) during 1973. At the time of the take over by the LIDCAP, it had a capital investment of Rs 55 lakhs and 192 persons on its rolls. Finished leather, produced in the above Tannery, is used in the manufacture of footwear and leather goods are sold to individual artisans in this field. Its production and capacity per annum are 3,00,000 tanning skins and 1,00,000 hides.

**Food and Agro processing Industries** The United Breweries Limited at Nacharam is the only concern which confines its activity to the manufacture of beer. This company was set up in 1970 with a total capital investment of Rs 47 lakhs and it provides employment to 105 persons. As for the manufacture of Indian made Foreign Liquor and wines, is concerned, there are three units in the organised sector. They are (1) Shaw Wallace and Company Limited (Andhra Winery & Distillery) at Malkajgiri, (2) M/s McDowell and Company Limited (Distillery Division) at Nacharam and (3) Vinedale Distilleries Limited, at Gaganpahad. These units were set up with a total capital investment of Rs 319.11 lakhs and provide employment to 870 persons.

The Charminar Bottling company at Katedhan is engaged in the manufacture of soft drinks and Carbonated water. It was established in the private sector in 1982 with a capital investment of Rs 90.70 lakhs providing employment to 100 persons in the concern.

The tobacco units constitute another major industry of the district in view of the abundant quantity of tobacco available in the state. The Nava Bharat Tobacco company Limited was established in 1971 at Uppal with an installed capacity of 3600 million cigarettes per annum. The commercial production was started in 1974. The total capital investment of the company is Rs 449 lakhs. About 700 persons are employed in this concern. The company provides plain and filter cigarettes.

The Brooke Bond India Limited set up a factory at Ghatkesar in 1946 and it commenced its operation in 1947. It processes various types of tea and coffee and provides employment to 950 persons. The capital investment of this unit is Rs 788.64 lakhs.

The Andhra Pradesh Child Nutrition Council (Ready to Eat Processed Food Factory) now called REPTRON was set up at Nacharam with the help of CARE (Co-operative for American Relief Everywhere), during 1977 to provide Midday meals in the form of protein enriched *seva* to nearly 3 lakhs school going children and pre-school children, pregnant women and lactating mothers in Rangareddi and three other districts. The capital investment of this project is Rs 220 lakhs. The working capital is met by the Government of Andhra Pradesh. It produces about Rs 3 crores worth nutritious food in the form of *seva Murukulu* and snacks in a year. A total number of 106 persons are employed in this unit. Now it covers the selected areas of all districts.

**The Modern Food Industry (India) Limited**  
A Government of India enterprise opened a unit at Uppal in 1969 with a capital investment of Rs 53.4 lakhs. It manufactures bread popularly known as Modern Bread. 131 persons are employed in this unit. The Ampro Food Products (P) Limited was established in 1961 at Uppal in the private sector with a capital investment of Rs 106 lakhs, manufacturing biscuits. The production capacity of this unit is 12,000 tonnes of biscuits per year.

The Associated Glass Industries Limited, established its unit at Kukatapalle as a joint venture with the Andhra Pradesh Industrial Development Corporation in 1972. It has a capital investment of Rs 657 lakhs. It manufactures glass bottles, glass shells, glass tubes, crystal glass and glass ware. 1,200 persons are employed in this factory. Its products enjoy market all over India and are exported to the Middle East Countries. Crystal ware is in great demand abroad. The Eggo packing (P) Limited, was established in 1982 at Jeedimetla with a capital investment of Rs 43 lakhs. It manufactures food trays and egg trays. 45 persons are employed in this unit.

**Cement Industry** Manufacture of Cement is a basic industry and it requires a heavy capital investment. Only one cement factory is coming up in the district. The Cement Corporation of India Limited, a Government of India enterprise, has established a plant at Karankot near Tandur during 1982 with an installed capacity of one million tonnes of Cement per annum. It is expected to be completed by 1986. The capital investment of the project is estimated to be around Rs 90 crores. On completion, the project is expected to give direct employment to about 500 persons and indirectly to about 1,000 persons.

Small Scale Industries occupy a vital place in the economy of the district because they cover a wide range of production activity both modern and traditional, using various levels of technology management.

With the growth of a number of small scale industries, the Government of India recently revised the definition of Small Scale Industries and enhanced the limit of investment on plant and machinery from Rs 10 lakhs to Rs 30 lakhs, irrespective of the number of persons employed in the small scale unit. With the result, some of the medium industries were brought under this classification and their number came down in the district considerably. The small scale industries in this district recorded a good progress after the formation of Andhra Pradesh. It was due to the liberal policies of the Government and the credit facilities extended by the commercial banks. There are 71 small scale units serving as ancillaries to the large scale industries. Promotional drive through intensive industrial development campaign and the incentives offered by the Government to the new industries also contributed to the growth of small

scale sector. The important categories of small scale industrial units in the district are agro based, forest based, animal husbandry, textile based, engineering and allied and chemical based. These units are producing food products, wood products, leather goods, machine parts, automobile equipment and parts, hosiery and garments and chemical products. There are several other categories of industrial units. In all there are 467 small scale industries having a total investment of Rs 1 99 658 lakhs and providing employment to 4 430 persons in the district during 1984-85.

Some of the Research and Development institutions are located in Rangareddi district. Important among them are the Defence Metallurgical Research Laboratories (DMRL), Defence Research, Development Laboratory (DRDL), Defence Electronics and Research Laboratory (DLRL) located at Chandrayana gutta, Regional Research Laboratories (R R Labs) at Tarnaka and Andhra Engineering Research Laboratory at Rajendranagar.

In a meeting held in 1955 the All India Small Scale Industries Board recommended the setting up of industrial estates all over the country to give pullup in the growth of small scale industries by providing financial and technical assistance and other facilities to the prospective entrepreneurs. In pursuance of this, the Government set up the Andhra Pradesh Industrial Infrastructure Corporation Limited in 1973 to play a catalytic role in the creation of industrial infrastructure and help the establishment and development of large, medium and small scale industries. It also aimed at coordinating all other agencies. In this district, the Corporation initially covered the four Industrial Estates, an assisted private Industrial Estate, a satellite Industrial Estate, seven Industrial Development areas and an Autonagar.

The Industrial Estate at Sanathnagar is a model estate in India. This was the earliest to be set up in 1958 on an extent of 91 acres (about 37 hectares). There are 111 industries in the estate. The total investment on the estate by the Government was Rs 81.8 lakhs, while on machinery by the entrepreneurs was about Rs 500 lakhs. The important items of manufacture are engineering goods, electrical and electronic components and chemical and allied products. All these units together are providing employment to about 5,000 persons.

The Industrial Estate at Vicarabad was inaugurated in 1967 on an area measuring 31.62 acres (12.8 hectares).

This estate was set up in 1965 on an extent of 51.60 acres (20.9 hectares) at Moula Ali. This estate was inaugurated in 1978 on a plot measuring 126.5 acres (61.2 hectares). The estate consists of 131 plots and 6 sheds.

Due to good response from the entrepreneurs to set up industries in Balanagar area, an area comprising 55.05 acres was acquired during 1963-64, adjacent to the industrial estate, Sanathnagar at a cost of Rs 11 lakhs. 81 plots were developed in the estate and allotted to the entrepreneurs.

Poultry, Blacksmithy, carpentry, soap, oil and leather and tanning industries are the artisan-based industries in the district. They are concentrated in all the blocks. The number of units are 3,178 and 6,376 persons are employed in them. The main items of production in the above units are country tiles, earthen ware, agricultural implements, bullock carts, chappals, tanning of hides, soap and oil.

## PLACES OF INTEREST

**Places of Religious Historical or Archaeological Importance** places of Religious institutions (temples) and mutts, charitable institutions and institutions of

historical or archaeological importance in the district are presented in the following statement for the convenience of the reader

### STATEMENT SHOWING THE MONUMENTS TEMPLES AND MUTTS IN RANGAREDDI DISTRICT

### Places of Tourist Interest

**Keesra (Medchal Taluk)** This village lies at a distance of about 32 kilometres from Hyderabad city in the north-east direction and ten kilometres from Ghatkeswar railway station on the Hyderabad-Vijayawada Railway line. Keesra is also known as Keesragutta. The village derived its name from the

Sanskrit word Kesari (Hanuman) and in course of time it became Keesra. Another version is that this place was associated in the past with the deity Lakshminarasimha whose temple is situated at a short distance from the famous Ramalingeswara temple on the hillock of Keesra. An interesting and peculiar feature of the temple is that it faces west. Keesragutta appears to have had a glorious past as is

evident from the ruins of an old fort and some stone pillars below the hillock. There is a stone pillar on the top of this hillock bearing the sculptures of vighnesvara, Anjaneya and the incarnations of Mahavishnu. The Brahmotsavam of Ramalingesvara, popularly known as the Keesra Jatara held annually on the Mahasivaratri day is the main attraction of the place.

**Medchal ( Medchal Taluk )** Medchal the headquarters of the taluk of the same name lies at a distance of 32 kilometres to the north of Hyderabad. It was originally known as Medichalam (Medi means fig and Chelama means spring) but it later came to be known as Medchal. This place was once a pleasure resort for the early Muslim rulers of Hyderabad who constructed a beautiful mansion here. There is a temple of Ramalingesvara on a hillock of 61 metres height at a distance of three furlongs (half a Km ) to the west of the village. This temple received the patronage of the Kakatiyas. The mosque 61 metres high at the place was constructed during the time of Aurangzeb.

**Arutla (Ibrahimpattanam Taluk)** This village is situated at a distance of sixteen Kms from Ibrahim pattanam and 39 Kms from Hyderabad amidst the Ibrahimpattanam and Rachakonda hills. Arutla was originally known as Aruputla. This village was historically associated with the rule of Sarvajna Singa Bhupala who ruled over Rachakonda in the first half of the 15th century A.D. An interesting feature of the place is that at a distance of four kilometres from the village there is a 'Bugga' (spring) which is said to be a perennial one flowing, unlike others, from east to west. The idols of Siva and his consort Parvati are found at the spot. The Bugga Jatara, which is being held for the last one and a half centuries is celebrated annually on Kartika Sudha Purnima and thousands of devotees congregation this occasion.

**Ibrahimpattanam ( Ibrahimpattanam Taluk )** Ibrahimpattanam is situated at a distance of 32 kilometres from Hyderabad city on the Hyderabad Nagarjunasagar Road. The place derived its name from Ibrahim Qutb Shah who ruled over the Golconda Kingdom from A.D. 1550 to 1580. The temples of Hanuman, Chennakesava, Narasimha, the Dargah of Ibrahim Qutb Shah the chilla

(building) on the tankbund raised in memory of the Muslim preacher Hazrat Ali and the 46 metres high mosque constitute the places of worship of the Hindus and Muslims.

Among the works of public utility executed at the place during the reign of Ibrahim Qutb Shah the tank of Ibrahimpattanam was the most important and it irrigates over 480 hectares. The Rangapur observatory, an important link in the chain of astronomical observatories in India is situated near Rangapur village (Ibrahimpattanam taluk) about 56 kms from Hyderabad City. It is reported to contain the largest telescope in South East Asia.

#### **Rajendranagar (Rajendranagar Taluk)**

Rajendranagar is the taluk headquarters and is situated at a distance of 20 Kms from Hyderabad. It is the seat of the Andhra Pradesh Agricultural University.

#### **Shamshabad (Rajendranagar Taluk)**

Shamshabad lies at a distance of 21 Kilometres from Hyderabad and it is the only major town in the taluk. The place has become very famous for the large extent of Anab Shahi Vineyards especially after the formation of Andhra Pradesh in 1956. Husain Alam Savari Dargah is an important place of worship in the locality.

#### **Gandipet ( Rajendranagar Taluk )**

This village is situated at a distance of 19 Kms to the west of Hyderabad. The village was founded in connection with the construction of the Osmansagar dam across the Musi in 1919-20. The catchment area of the dam is 738 Sq Kms and the total length is 3,108 metres. The dam was designed to control the floods in the Musi and supply drinking water to the residents of Hyderabad and Secunderabad. The pleasant and beautiful gardens, the comfortable rest houses and the placid expanse of water have made this place a tourist attraction and become the usual resort for picnics.

#### **Osmansagar (Rajendranagar Taluk)**

This is one of the biggest dams in the State constructed across the Musi. The pleasant and beautiful gardens, the comfortable rest-houses and the placid expanse of water made this place a tourist attraction.

**Himayatsagar (Rajendranagar Taluk)** This huge lake is situated at a distance of thirteen kilometres from Hyderabad and the area surrounding the Himayatsagar is now known as Rajendranagar. The lake presents a picturesque scenery and is a picnic spot.

**Kidwai Gardens (Rajendranagar Taluk)** These botanical gardens are at Rajendranagar and they are under the control of the State Agricultural Department. The place is a picnic spot and a holiday resort for many.

**Chevella (Chevella Taluk)** Chevella the headquarters of the taluk of the same name is situated at a distance of 42 Kilometres from Hyderabad city and 31 Kms from Vicarabad railway station. The temple of Venkateswara is the important place of worship here. The Netherlands Foundation for Child Welfare has sponsored the establishment of an integrated child care project in India and it is gratifying to note that Chevella block has been selected for locating this project. This project came into being in April, 1969. The project aims at providing care to the expectant mothers and total care and welfare to the child from birth to its adult age. The headquarters of the Director, Indian Bureau, Indo-Dutch Project for Child Welfare, is however located at Hyderabad.

**Shabad (Chevella Taluk)** Shabad lies at a distance of 16 Kms west of Shadnagar railway station. Shabad is famous for the stones useful for flooring. A big tank known as the Pahalwan Talab which irrigates nearly 202 hectares, is a place of attraction in the village. The most important festival celebrated at the place is the Urs of Pahalwan Shah Dargah when a large number of Muslims and Hindus congregate.

**Ananthagiripalle (Anthagiripalle) (Vicarabad Taluk)** This village lies at a distance of four kilometres from Vicarabad. It was thus named because it lies on the Ananthagiri range of hills. The river Musi takes its birth near Sivareddipet and after flowing through

three taluks of Hyderabad district and the city it joins the Krishna near Vadapalle in Nalgonda district. On either side of the road there are big mango-groves and the village is surrounded by a thick forest. Because of the bracing weather and salubrious climate a T B Sanatorium was constructed at the place. Ananthagiripalle is considered important on account of the existence of the famous temple of Ananthaswami. The peculiarity of this temple is that there is no idol inside the shrine. The hill is considered as sacred as the Seshadri, the abode of Venkateswara. It is believed to be the tail-end of the hill range commencing at Ahobilam in Kurnool district.

**Vicarabad (Vicarabad Taluk)** Vicarabad lies at a distance of 83 Kms from Hyderabad and is a railway station on the Secunderabad Bombay broad gauge line. The town is located at a height of 1153 metres above the mean sea level. On account of the fine weather the place serves as a tourist centre and a summer resort in the district.

**Tandur (Tandur Taluk)** This place was a small Jagir prior to the creation of Hyderabad district, in Kodangal taluk in Gulbarga district. It is a noted business centre especially for the famous Shabad stone slabs.

**Yelal (Elal) (Tandur Taluk)** This village lies at a distance of eight kilometres from Tandur Railway station and 51 Kms from Vicarabad railway station. It is a place of confluence of the rivers Kagna and Kakaraveni. Big bricks and the idols of Buddha were found when the earth was dug at the place and it is believed to have been a Buddhist centre in the past.

**Alwal (Vallabhnagar Taluk)** Alwal is a Railway station on the Medchal Umdanagar line of Secunderabad Manmad metre gauge section of the south Central Railway. The temple of Balaji (Venkateswara) is the most important place of worship here. More than 250 years ago one Raja Chandulal, a Marwadi, got this temple constructed. The temples of Jagannadha and Hanuman at the place are equally revered.

## CENSUS CONCEPTS

**Rural and urban areas** It is customary to classify the population of every country at each census as Rural and Urban. Such a classification has considerable importance and is necessary from the point of assessing the differentials in the social, economic, cultural and demographic characteristics of the population. Hence, at the beginning of each census, the criteria for treating a place as a town i.e., urban are evolved and the areas are then classified according to the definition so evolved. The census definition of a town in this country was more or less the same from 1891 to 1941. The towns broadly comprised all municipalities irrespective of the population size and every other continuous collection of houses permanently inhabited by not less than 5,000 persons while provincial Directors of Census Operation having regard to the character and relative density of population, their importance as centres of trade decide them to be towns. In the application of this definition, there was some variation from State to State according to the local conditions. It was only at the 1961 census that a fairly strict definition was sought to be applied throughout the country in order to determine a place as an urban unit. The same definition was followed at the 1971 and 1981 Censuses also. The Director of Census Operations, however, was given discretion to include places that had other distinct urban characteristics and to exclude undeserving cases in consultation with the State Government. The following criteria are adopted for treating a place as urban at the 1981 Census:

- i) A minimum population of 5,000
- ii) At least 75% of the male working population is in non agricultural pursuits
- iii) A density of population of at least 400 persons per Sq. Km

The urban criterion of 1981 varies slightly from that of 1961 and 1971 Censuses, in which the males working in activities such as fishing, logging etc., were treated as engaged in non agricultural activities and therefore contributed to the 75% criterion in 1961

and 1971 Censuses whereas in the 1981 Census these activities are treated as on par with cultivation and agricultural labour for the purpose of this criterion.

The towns are distributed into six classes as detailed below:

| Classification of towns | Population size    |
|-------------------------|--------------------|
| Class I                 | 1,00,000 and above |
| Class II                | 50,000-99,999      |
| Class III               | 20,000-49,999      |
| Class IV                | 10,000-19,999      |
| Class V                 | 5,000-9,999        |
| Class VI                | below 5,000        |

The class I towns are termed as cities.

**Standard urban Areas** Besides classification of all places into rural and urban areas, two more concepts viz. Urban Agglomeration and Standard Urban Area were evolved from the 1971 Census. One of the difficulties in comparing the urban population and its characteristics between one census and another, apart from the changes in the list of certain units at each census, had been the change in the jurisdictions of the urban units from census to census. The concept of Standard Urban Area had been introduced at the 1971 census and the same was followed in 1981 with a view to obviating this difficulty to some extent. The essentials of a Standard Urban Area are (i) that it should have a core town of a minimum population size of 50,000, (ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town and (iii) that there are probabilities of this entire area getting fully urbanised in a period of two or three decades. The idea is that it should be possible to provide comparable data for a definite area of urbanisation continuously for three decades which would give a meaningful picture. This replaced the concept of town group which was introduced in the 1961 Census. The town group was made up of independent urban units not necessarily contiguous to one another but

were to some extent inter dependent. The data for such town groups become incomparable from census to census as the boundaries of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971 Census. In Andhra Pradesh 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripheral units.

**Urban Agglomeration** Apart from town/city the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An urban agglomeration constitutes

- a) A city with continuous outgrowth (the part of the outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages),
- b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a)
- c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread

There are only 4 urban agglomerations in the state viz, Vishakhapatnam, Rajahmundry, Vijaya wada and Hyderabad.

**Census House** A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc, used or recognised as a separate unit. It may be inhabited or vacant.

**Household** A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi member household. For census

purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels, residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

**Scheduled Castes/Scheduled Tribes** Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes / Tribes in relation to that State or Union Territory as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes orders, (Amendment) Act 1976 notified under the Government of India, Ministry of Home affairs, Notification No BC 12016/34/76-SCT-V dated 27.7.1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

**Literates** A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

**Worker** The definition of work adopted in 1981 Census is as follows

“Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.”

In the concept of work a significant departure is made at the 1981 Census. At the 1971 Census the main activity of a person was initially enquired according as he spent his time basically as a 'worker', engaged in production of goods and services or as a non-worker. For regular work in organised sector the reference period was the week prior to enumeration, and for seasonal work such as agriculture, etc., the last one year. Persons engaged atleast for a day in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person who was basically a non worker such as a student, or housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have as detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

**Non workers** All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non workers.

The non workers are divided into the following seven categories

- 1 Household duties i.e. all those persons basically engaged in unpaid home duties doing no other work
- 2 Students i.e. all full time students or children attending school
- 3 Retired persons or a rentier i.e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work
- 4 Dependent i.e., an infant or child not attending school a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either but are purely dependent
- 5 Beggars etc i.e. beggars vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work
- 6 Institutional inmates i.e., a convict in a jail or an inmate of penal mental or charitable institution and
- 7 Other non workers all non-workers who may not come under any of the above six categories

**Marginal Workers** A Significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non workers with secondary work.

## HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics history religion and ethnography but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later the Madras Government replaced the District manuals by another publication viz the District Gazetteer consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of volume B was also stopped after 1931 Census. Due to the II world war, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Ongole has been published.

**The Village Statements** Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

**District Census Handbooks** Sri R. A. Gopala Swamy I.C.S. the then Registrar General, India and Ex officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation should be bound together in a single manuscript volume called the District Census Handbook and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost in the same manner as the village statistics of the earlier censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts. Part I containing the administrative statistics and Part II the census tables. Whereas in composite Madras State, the Handbooks were brought out in one single volume for each district.

**Pattern of District Census Handbook at 1961** At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features history, social economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz, General population tables, economic tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of village and town directory which was

the most vital part of the Handbook giving the village wise and town wise Primary Census Abstract i.e. particulars of area, households population scheduled castes scheduled tribes literacy broad categorisation of working population, etc. Important amenities such as educational, medical public health and communication facilities available were also indicated against each village and town. Nine such tables containing village wise particulars such as irrigation sources important crops raised, value of land, cooperative societies industrial establishments, police stations list of skilled craftsmen etc. were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

**Pattern at 1971 Census** At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Handbooks at 1961 Census due to two reasons: 1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., Part A, Part B and Part C as shown below.

- Part — A Village and Town Directory
- Part — B Village and Town Primary Census Abstract
- Part — C Administrative Statistics and Report

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However the printing of Part C was given up.

**Pattern at 1981 Census** At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The District Census Handbook of 1981 Census comprises of the following two parts brought in single volume, the grouping of which would enhance the value of publication as the data given therein are closely interrelated.

Part A Analytical Note

Part B Village and Town Directory and Village and Town wise Primary Census Abstract

It has been decided not to go in for administrative statistics that is Part C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and Primary Census Abstract along with the codes used under each column are explained hereunder.

**Scope of Village Directory** As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk wise in the District Census Handbook (DCH). For convenience of references, an alphabetical list of villages together with location code numbers in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These include, area of the village, total population with number of households at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Wherever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Columns 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or underwater, etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below.

1 Forests  
(Column 15)

These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2 Cultivated area with  
break up irrigated  
and unirrigated  
(Columns 16 & 17)

This includes the land under the following three categories

(i) *Net area sown*

The net area sown represents the area sown to crops counting areas sown more than once in the same year only once.

(ii) *Other fallows*

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or unremunerative nature of farming, etc.

(iii) *Current fallows*

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3 Culturable waste  
(Column 18)

This includes the land under following three categories

(i) *Permanent pastures and other grazing lands*

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) *Miscellaneous tree crops groves not included in the area sown*

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use lands under casuarina trees thatching grass bamboo bushes and other groves for fuel etc which are not included under Orchards are classed under this category

(iii) *Culturable waste*

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other Such lands may be either fallow or covered with shrubs and jungles which are not put to any use They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings Land once cultivated but not cultivated for five years in succession is also included in this category

4 Area not available for cultivation  
(Column 19)

This includes the land under the following two categories

(i) *Land put to non-agricultural uses*

All lands occupied by buildings roads and railways or underwaters e.g. rivers and canals and other lands put to uses other than agricultural

(ii) *Barren and uncultivable land*

This covers all barren and uncultivable land like mountains etc i.e. which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest and for information on the number of copies of newspapers circulated in the village, and the number of motor cycles/scooters, cars/jeeps and tractors available in the village

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned

There are five Appendices viz Appendix I II III IV A IV B and decadal Statement for three decades Leaving Appendix I all other statements dealing on different items are introduced newly at 1981 Census In the Appendix I to the village directory taluk level totals of the amenities have been furnished which gives the picture for the district as a whole

At the 1981 Census additional items viz total population and number of households and approach to village have been introduced Information on population and number of households will be useful as ready reference for analysing the data Item on communications has been singled out to spell in terms of availability of the public transport system This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway It is against this background that the item on approach to village has been listed separately This refers to road etc leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year Adult literacy class/centre under item on Education and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission

**Scope of Town Directory** There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names These statements are almost similar to those adopted at 1971 Census except for a few additional columns The titles of the statements are as follows

|           |     |  |
|-----------|-----|--|
| Statement | I   | Status and growth history  |
| Statement | II  | Physical aspects and location of Towns 1979                      |
| Statement | III | Municipal Finance 1978-79  |
| Statement | IV  | Civic and other amenities, 1979                                  |
| Statement | IVA | Civic and other amenities in notified slums, 1979                |
| Statement | V   | Medical, Educational, Recreational and cultural facilities, 1979 |
| Statement | VI  | Trade, Commerce, Industry and banking, 1979                      |

With a view to facilitate analysis of data, a few new columns have been introduced. The columns class of town, in every statement is a significant addition. By taking the class of town into consideration the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of Civic administrative status in statement III and IV and population in statement IV and V also serve the same purpose. The formats of Town Directory have been devised to suit the Minimum Needs Programme of the planning commission. As a sequel to this programme the columns Scheduled Castes and Scheduled Tribes population in statement IV and Adult Literacy classes/centres in statement V are identical.

In case such of the amenities as Fire Fighting Service in statement IV, the Educational facility in statement V is not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same state or other state where available along with its distance from the referent town has been given. This is a new feature of 1981 Census as it is necessary to identify the areas that have no specific facility in the district.

Statement VII i.e. Population by Religion and Scheduled Castes/Scheduled Tribes in Towns of 1971 Census was discontinued at the 1981 Census and a new statement IV A has been introduced to explore the possibility of civic and other amenities available in notified slums in class I and II towns only.

The following sixteen places form part of Urban in Rangareddi District at the 1981 Census

|              |                 |
|--------------|-----------------|
| 1 Alwal      | 9 Macha Bolaram |
| 2 Balanagar  | 10 Moosapet     |
| 3 Bowenpalle | 11 Qutbullapur  |
| 4 Budvel     | 12 Shamshabad   |
| 5 Fatehnagar | 13 Tandur       |
| 6 Ghatkeswar | 14 Vicarabad    |
| 7 Kapra      | 15 Yapral       |
| 8 Kukatpalle | 16 Malkajgiri   |

Of these Tandur only is Municipal town. All others are panchayat towns.

Of these sixteen towns only Tandur Municipality was classified as town from 1901. Budvel, Ghatkes-

war, Kapra and Qutbullapur are places classified as towns for the first time in the 1981 Census in consideration of the district urban features. Alwal, Bowenpalle, Fatehnagar, Macha Bolaram, Malkajgiri, Shamshabad, Vicarabad and Yapral were classified as towns from 1951. But Yapral was declassified in 1961 & 1971 Censuses and again it was classified as town in 1981 Census. Balanagar, Kukatpalle and Moosapet were classified as towns from 1971 Census.

Malkajgiri is only class II town with a population of 65,776 persons. Alwal, Fatehnagar, Qutbullapur, Tandur and Vicarabad are class III towns whose population ranges from 20,000 to 49,999 each. Balaragar, Kapra, Kukatpalle, Macha Bolaram and Shamshabad are class IV towns, the population of which ranges from 10,000 to 19,999. Budvel, Ghatkeswar, Moosapet and Yapral are class V towns whose population ranges from 5,000 to 9,999 and Bowenpalle is the only class VI town with a population range of below 5,000 in the district. The urban population of the district is 376,997 persons constituting 23.83% of the total population of the district.

#### Statement I Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 1981, density for 1981 Census and sex ratio from 1961 to 1981 Censuses of each town in columns 2 to 19.

In this as well as in all other Town directory statements, columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of town directory data at the State and all India levels. This is presented according to 1981 population of the town as per the population size classification.

| Population        | Class |
|-------------------|-------|
| 100,000 and above | I     |
| 50,000 — 99,999   | II    |
| 20,000 — 49,999   | III   |
| 10,000 — 19,999   | IV    |
| 5,000 — 9,999     | V     |
| Below 5,000       | VI    |

The civic administrative status of the town is indicated in brackets by abbreviated letters 'M' for Municipality and 'P' for Panchayat. The location code number under col 3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk where the town is located is given to facilitate analysis of data at state and all India levels. Area in Sq Kms and number of households including houseless households for each town are included in the town directory for the first time at 1981 Census. The population of the town with decadal growth rate from 1901 Census to 1981 is given in col 7 to 15. The percentage growth rate is indicated below the population in brackets. Density for 1981 is a new column (col 16) introduced to facilitate analysis of Town Directory data. It has been calculated taking into account the area and the population of 1981 Census of the town and presented per Sq Kms sex ratio from 1961 to 1981 census has been given in columns 17 to 19. This is also a new addition to facilitate analysis of Town Directory data. Sex ratio defined here is number of females per 1 000 males.

Fatehnagar has shown a decrease in its population during the decade 1961-1971. Tandur town has shown low growth of population from 1921-1941 and in 1961. Bowenpalle Town has shown a low growth of population during the decade 1971-81. Fatehnagar, Kukatpalle and Malkajgiri have shown more than 100% of growth in their population over 1971.

Of the sixteen towns in the district Balanagar town has the largest area of 29.53 Sq Kms followed by Shamshabad town with an area of 18.65 Sq Kms. The third important town as far as area is concerned is kukatpalle with an area of 18.31 Sq Kms.

Fatehnagar town with an area of 2.17 Sq Kms records the highest density of 9 757 persons per Sq Kms. Next to it comes Tandur a Municipal town with an area of 5.82 Sq Kms records density of 5 576 persons per Sq Km followed by Malkajgiri Town with 3,802 persons per Sq Km.

#### **Statement II Physical Aspects and location of Towns, 1979**

This statement has 12 columns and depicts physical aspects and location of towns in the district. Under columns 3 to 5 in the statement, data relating

to rain fall and maximum and minimum temperatures were given. When this information is not available for any town then the information available for that nearest town has been given against such town.

All the towns are well connected by bus communication facility. Besides this some of the towns in the district are connected with rail transport.

#### **Statement III Municipal Finance 1978-79**

The data for inclusion in this statement was obtained from the respective statutory and Non-statutory bodies from their budgets and accounts.

The table shows that no town has an excess of expenditure over income except Ghatkeswar Town. In Alwal, Fatehnagar, Kukatpalle, Macha Bolaram, Tandur and Vicarabad more than 20% of the total receipts is utilised for purpose of public Health and conveniences. For public institution like schools and libraries except three town viz Balanagar, Budvel and Ghatkeswar, the rest have spent nothing on this item. Yaprall town was not taken into consideration for analysis as the panchayat of this town was started functioning from 1981.

#### **Statement IV Civic and other Amenities 1979**

As the title itself reveals this statement deals with the facilities provided to the people in urban areas of the district.

The facility of open surface drains is available in all the towns except Budvel, Ghatkeswar and Yaprall. Besides this facility the sewerage and side drains facilities are also available in some of the towns. All the towns have protected water supply through taps except Kapra, Macha Bolaram, Qutbullapur and Yaprall.

All the Sixteen towns have electric supply for domestic as well as industrial purposes.

In Andhra Pradesh Domestic Service includes supply of energy for lighting fans and domestic purpose in domestic premises and supply in poultry farming units upto 100 birds. Industrial service means supply for purposes of manufacturing processing and for preserving goods for sale rice mill, oil mills flour mills ginning mills decorticating mills dal and gram mills, stone crushers water works and sewerage.

pumping stations operated by local authorities or Government Departments or co-operative House-building societies and pumpsets of Railways for whatever purpose they may be used. Commercial service includes the supply of energy for lights fans for non domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads streets thorough fares including parks markets cartstands bridges and for traffic signalling. Supply of energy to places of worship like churches, temples mosques, gurudwaras, educational institutions student hostels municipal guest houses travellers bungalows circuit houses of the Government charitable institutions and recognised service institutions are included in 'others'.

Malkajgiri town has the highest number of domestic and Road lighting points. Qutbullapur has highest number of Industrial connections followed by Fatehnagar panchayat.

#### **Statement IV A Civic and other Amenities in notified slums 1979**

This is a new statement on civic and other amenities provided to the people living in notified or recognised slums in class I and II towns. Since the magnitude of slum is greater in respect of class I and II towns, presentation of data on slums is limited to class I and II towns only. Malkajgiri is the only one class II town in the district and there is no notified or recognised slum area in this town.

#### **Statement V Medical Educational Recreational and Cultural Facilities in towns 1979**

In this statement the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district. There are 56 medical institutions which include Govt Hospitals dispensaries, T B clinics, nursing homes and maternity and child welfare centres together with a total bed strength of 608 catering to the medical needs of entire urban population. Institutions covering all systems of medicine have been included in the statement. There is a big T B Sanatorium with an inpatient accommodation of 417 beds at Vicarabad Town which is endowed with bracing climate.

There are only two degree colleges, one Arts and Commerce College at Tandur town and one Arts Science and Commerce of Vicarabad.

There are 4 Junior colleges or Higher secondary Schools, 33 secondary or high schools, 54 Junior secondary or Upper Primary Schools and 106 primary schools in all the towns put together in the district.

A different method has been adopted in presenting the number of educational institutions. Composite schools like middle schools with primary classes or secondary schools with middle classes have been included in the number of primary and middle schools respectively. For example, if in a town there are two primary schools upto say class IV and one high school from class I to class X, the number of primary schools in the town is given as 3 and that of middle schools as one and secondary school is one even though there are physically only 3 educational institutions. Again a composite school having classes upto class XII has been divided as shown below.

|       |           |                  |
|-------|-----------|------------------|
| Class | I to IV   | Primary          |
| Class | V to VIII | Middle           |
| Class | IX to X   | Secondary        |
| Class | XI to XII | Higher Secondary |

Thus the number of educational institutions physically existing within a town have not been presented but has been presented by the grouping of the classes in the institution and treating each group as a school of its kind. This grouping holds true irrespective of educational institutions they belong to. For instance, the grouping marked as Higher secondary i.e. class XI to XII may physically belong to a college but for the purpose of Town Directory these two classes put together constitute one unit of a Higher Secondary School and the rest of the college has been treated as a college.

There are 12 Cinema halls and 21 Public Libraries including reading rooms and 30 Community halls in the districts.

## Statement VI Trade Commerce Industry And Banking 1979

raw material from the States of Assam, West Bengal,  
Tamilnadu Kerala and Karnataka

The various data on trade, Commerce, Industry and Banking in the district are presented in the four teen columns Rangareddi is industrially developing district Balanagar, Fatehnagar, Kapra, Kukatpalle, Malkajgiri Moosapet and Qutbullapur towns are well noted manufacturing and export centres of Aeronautic parts, detonators, electronic goods, all types of electrical goods and T V sets stabilizers synthetic products chemicals, cement products sanitary pipes Oil engines, sewing machines cotton yarn, Fruit juices, Poultry feeds and watches etc

Shamshabad town a rich grape growing town has big wine manufacturing establishments also

Tandur town is a flourishing business centre especially for the famed flooring stone slabs which have a country wide market

The district is served by a net work of (16) Banks of which 4 each in Tandur and Vicarabad towns, 2 each in Alwal and Malkajgiri 1 each in Bowenpalle, Budvel, Ghatkeswar and Shamshabad

There are ten agricultural credit societies and 45 Non-agricultural credit societies to serve the total urban population of the district

The famous tea and coffee producing industry is situated at Ghatkeswar town which is obtaining

## PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. Till the 1971 Census the Primary Census Abstract and some other tables were generated by breaking the individual slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the individual slips. The data on Primary Census Abstract were obtained by compilation of data available in Part-II of the Household Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/locality/block of a town in urban areas,

- 1 Location Code number and name of village/town and area
- 2 Total number of occupied residential houses and total number of households
- 3 Total population and its sex breakup
- 4 Population of Scheduled Castes and Scheduled Tribes by sex breakup
- 5 Literate persons by sex
- 6 Total main workers (I to IX categories) and the breakup of the workers into four broad categories viz -

|          |                          |  |
|----------|--------------------------|--|
| Category | I                        | Cultivators  |
| Category | II                       | Agricultural Labourers   |
| Category | V (a)                    | Household Industry   |
| Category | III IV, V (b) & VI to IX | Other workers and also the marginal workers and non workers by sex |

The column Marginal Workers is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year. Thus he would be basically classified as a non worker for the major part of the year.

While presenting the data in the Primary Census Abstract villages and towns have been arranged in the ascending order of their L C Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word Rural has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L C Numbers is given at the beginning of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract are required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 irrespective of whether they lived in normal residential houses or huts or in institutions like hospitals, hostels, asylums, boarding houses, Hotels etc., or houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of Rangariddi district is as follows

|       | Persons   | Males   | Females |
|-------|-----------|---------|---------|
| Total | 1 582 062 | 808 708 | 773 354 |
| Rural | 1 205 065 | 611 674 | 593 391 |
| Urban | 376 997   | 197 034 | 179 963 |

Column No 1 & 2 indicate L C No and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every dis-

**Cultivator** For purposes of census a person is working as cultivator if he or she is engaged either as employer single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money kind or share Cultivation includes supervision or direction of cultivation

**Agricultural Labourer** A person who works in another person's land for wages in money, kind or share is regarded as agricultural labourer An agricultural labourer has no right of lease or contract on land on which he/she worked

**Household Industry** Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas The large pro

portion of workers in a household industry should consist of members of the household including the head The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act

**Other Workers** All workers who are not cultivators or agricultural labourers or in household industry are other workers The type of workers that come under this category include factory workers, plantation workers, those in trade commerce business, transport mining, construction political or social work, all government servants, municipal employees, teachers priests entertainment artists, lawyers barbers, dhobis etc

According to the 1981 Census there are 278 257 occupied residential houses and 292,464 households in Rangareddi district

# **BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA**

There are 1,021 villages in the district at the 1981 Census. It is a newly formed district after 1971\* Census. Out of the 1,021 villages, 949 are inhabited while 72 villages are uninhabited.

urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

30 villages which are fully included in urban areas are not taken into account in arriving the total number of villages in the district. The following table gives the population of taluks by total /rural/

Vallabhnagar taluk has more urban population than other taluks while Vicarabad taluk has the least urban population as per 1981 Census. Five taluks are returned as exclusively rural taluks.

**Table 1**  
**POPULATION NUMBER OF VILLAGES AND TOWNS 1981**

| Sl No        | Name of Taluk   | Population       |                |                |                  |                |                |                |                |                | No of Villages |            |           |

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 500-1 999 population and form 56.69% of total villages in this district.

Table 3  
DISTRIBUTION OF VILLAGES BY  
POPULATION RANGES

| Range of population | No. of villages in each range | Percentage of villages in each range |
|---------------------|-------------------------------|--------------------------------------|
| (1)                 | (2)                           | (3)                                  |
| — 199               | 67                            | 7.06                                 |
| 200 — 499           | 180                           | 18.97                                |
| 500 — 1 999         | 538                           | 56.69                                |
| 2 000 — 4 999       | 149                           | 15.70                                |

| 10 000+             | 2                             | 0.21                                 |
| Total               | 949                           | 100.00                               |

The following table presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per Sq. Km. of each village have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observed in the density range of 101-200. More than 78.61% of villages come under density group 101 and above. This district has returned a density of 211 persons per square kilometre as against 195 persons for the State.

Table 4  
DISTRIBUTION OF VILLAGES BY DENSITY

| Range of density (per sq. km) | Total No. of villages in each density range | Percentage of villages in each density range |
|-------------------------------|---|--|
| (1)                           | (2)   | (3)  |
| — 10                          | 8   | 0.84   |

| 81 — 90                       | 1   | 0.11   |
| Not known                     |   |  |
| Total                         | 949   | 100.00                                       |

According to 1981 Census the population of Scheduled Castes in Rangareddi district is 307,947 accounting for 19.46% of the total population of the district. Scheduled Caste population in this district forms 3.87% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range. 84.83% of the villages have Scheduled Caste population in a percentage range 11 and above. Only 5.58% of villages are without Scheduled Caste population.

Table 7 provides the total population, Scheduled Castes and Scheduled Tribe population and the percentage of Scheduled Caste and Scheduled Tribe population to total population of the towns in the district.

The total Scheduled Castes population in all the Urban areas leaving the portions included in Hyderabad Municipal Corporation of the district at 1981 Census was 43,247 persons representing 15.27% of the all towns population. Among the towns, proportions of Scheduled Castes population varies from 7.69% in Tandur Municipality to the 55.36% in Yaprul panchayat town.

The Scheduled Tribes population in all the urban areas leaving the portions included in Hyderabad Municipal Corporation of the district according to 1981 Census is 3,752 persons constituting 1.32% of all towns population. The proportion of Scheduled Tribes population vary from 0.34% in Budvel town to 3.33% in Yaprul panchayat town.

Distribution of villages according to the availability of different amenities by taluks is presented in the following table. As seen from the table drinking water facility is available in almost all the villages while amenities of education, power supply, approach by pucca road, communications and P & T are available in respect of 90.73%, 83.03%, 60.48%

54.27% and 50.90% of villages respectively. Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz 23.08% of villages have medical facility and 6.85% of villages have market facilities.

The table 11 clearly sets out the talukwise position of various amenities.

Table 11

## DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

| Sl No | Name of Taluk | No of inhabited villages | Number (with percentage) of villages having one or more of the following amenities |                |                 |                  |               |                |                        |                |
|-------|---------------|--------------------------|--|----------------|-----------------|------------------|---------------|----------------|------------------------|----------------|

Table 12 gives the proportion of rural population served by the different amenities and also provides this information taluk wise

45.43 percent of population has only medical facilities while about 16.18% of the population has

access to market facilities. More than 70% of the population has power supply approach by pucca road P & T and Communications while 98.29% and 99.89% of the population has access to education and drinking water facilities respectively

Table 12

## PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

The following table gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There are 7 villages in this district which do not have drinking water facility. Only 88 villages do not have education facility within the village but these are available at different distance ranges. Large number of villages do not have market, medical communication and P & T facilities within the village, but these facilities are available at different distance ranges from the concerned villages.

Table 13

## DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

| Villages not having the amenity of | Number of villages where the amenity is not available and available at distance of |          |        |                  |
|------------------------------------|--|----------|--------|------------------|
|                                    | - 5 kms  | 5-10 kms | 10+kms | Total (cols 2-4) |
| (1)                                | (2)  | (3)      | (4)    | (5)              |
| 1 Education                        | 81   | 7        |        | 88               |
| 2 Medical                          | 307  | 315      | 108    | 730              |
| 3 Drinking Water                   | 7  |          |        | 7                |
| 4 P & T                            | 347  | 119      |        | 466              |
| 5 Market                           | 171  | 288      | 425    | 884              |
| 6 Communication                    | 289  | 140      | 5      | 434              |

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities. 8% of the villages have town within the range of -5 Kms. About 26 percent of the villages have towns within a range of 6-15 Kms, while the balance 65% has nearest town located within 16-50 Kms and a very negligible

proportion 0.74% of the villages have above 51 + Kms.

As given in other tables on amenities, medical and market facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

| Distance range from the nearest town (in Kms) | No of inhabited villages in each range and percentages to total | Number (with percentage) of villages having the amenity of |                        |                        |                             |                      |                        |                              |                        |
|---|---|--|------------------------|------------------------|-----------------------------|----------------------|------------------------|------------------------------|------------------------|

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500-1,999, 2,000-4,999 and 5,000+ are considered and the villages are distributed in these ranges. About 56.59% of the villages are in the range of 500-1,999, while the villages less than 500 and those in the range of 2,000-4,999 form 26.34% and 15.49% respectively.

Only 1.58% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages falling in these ranges are also on the increase. As has been observed earlier, only the medical and market facilities are not adequate in the villages falling in the ranges other than 5,000+.

Table 15

## DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE

| Population range | No of inhabited villages in each range and percentage to total | Number (with percentage) of villages having the amenity of |                |                 |                  |               |                 |                        |                 |
|------------------|--|--|----------------|-----------------|------------------|---------------|-----------------|------------------------|-----------------|
|                  |  | Educa tion   | Medical        | Drinking Water  | Post & Telegraph | Market        | Communi cations | Approach by Pucca Road | Power Supply    |

The staple food in the majority of villages in each taluk is given in this table 16

Rice Jowar and Bajra are the staple foods in the villages in Rangareddi district

Table 16

## MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH TALUK

| S No | Name of Taluk   | Staple Food |
|------|-----------------|-------------|
| (1)  | (2)             | (3)         |
| 1    | Medchal         | Rice        |
| 2    | Marpally        | Rice Jowar  |
| 3    | Hayathnagar     | Rice Jowar  |
| 4    | Ibrahimpattanam | Rice Bajra  |
| 5    | Maheswaram      | Rice Bajra  |
| 6    | Rajendranagar   | Rice Jowar  |
| 7    | Chevella        | Rice Jowar  |
| 8    | Vicerabad       | Rice Jowar  |
| 9    | Tandur          | Rice Jowar  |
| 10   | Pargi           | Rice Jowar  |
| 11   | Vallabhnagar    | Rice        |

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 61.07% of the total area is accounted for as cultivable area of the district of the total cultivable area of 429,722.62 hectares, 47,336.62 hectares forming 11.02% is only tenable. Chevella taluk has the largest percentage of cultivable area of 76.16% while the irrigated area is only 10.03% of cultivable area. Vallabhnagar taluk which has the least proportion of cultivable area of 25.78% has the highest percentage of 48.25% of irrigated area to total cultivable area of the taluk.

**Table 17**

Table 20 deals with the finances indicating the receipt and expenditure in towns in the district during 1979

Of the sixteen towns in the district the highest per capita receipt is noticed in Balanagar Panchayat town (Rs 106 24) followed by Kukatpalle panchayat town (Rs 50 46) and Moosapet panchayat (Rs 34 01) takes the third rank The lowest per capita receipt

is recorded in Budvel panchayat town (Rs 17 4) Receipt through taxes constitute the highest in Qutbullapur panchayat town (Rs 24 15) while this is lowest in Budvel panchayat town (Rs 0 57) From all other sources together the highest per capita receipt is seen in Balanagar panchayat town (Rs 93 89) followed by Kukutpalle panchayat town (Rs 28 68) while the lowest per capita receipt is recorded by Fatehnagar panchayat town (Rs 0 55)

Balanagar Panchayat town stands first among all the towns of the district with its per capita expenditure of (Rs 55 15) followed by Kukatpalle town (Rs 50 46) and Moosapet (Rs 34 01) Budvel town ranks last in per capita expenditure with Rs 1 74 The per capita expenditure of Rs 13 15 on public health and conveniences in Kukatpalle town is the highest among the towns while Budvel town has the minimum of (Rs 0 06) The highest per capita expenditure of Rs 32 71 on public works is recorded by Balanagar panchayat town Except Balanagar, Budvel and Ghatkeswar Panchayat towns no town has spent on public institutions like schools and libraries

All the civic bodies are running on sound lines with sufficient budget except Ghatkeswar which is functioning with deficit budget, Balanagar Kapra and Qutbullapur are having considerably more per capita receipts than per capita expenditure

**Table 20**  
PER CAPITA RECEIPT AND EXPENDITURE IN TOWNS

| Class name and civic status of the Town | P E R C A P I T A |                       |                                |                       |                        |   |              |                                    |                |

The following table 21 provides the data relating to the availability of educational facilities in different categories per 10,000 population. It may perhaps be mentioned here that data presented in the following table refer generally to the institutions that have been recognised by the State Government and are authori-

sed to teach the students for appearing at the different grades of Examinations conducted by the concerned Examination Boards periodically.

There are 106 primary schools 54 Junior secondary/middle schools 33 high schools 4 Junior Colleges in all the towns of the district.

| <b>Total</b>                        | <b>0 14</b>                                      | <b>1 17</b>                 | <b>1 91</b>                 | <b>3 74</b> |

From the table 22 it can be seen that the number of beds available in urban areas of the district is very low being 2 15 beds per every 1 000 population. Nearly 75% of the total bed strength in the urban areas of the district is concentrated in Vicarabad town. The bed population ratio is more than the district average in Ghatkeswar town where there are 3 07 beds per 1,000 population. All the other towns have this ratio less than the district index.

**Table 22**  
NUMBER OF BEDS IN MEDICAL INSTITUTIONS  
IN TOWNS

| Class Name and Civic status of the towns | No of beds in Medical institutions per 1 000 Population |

### Physically Handicapped Persons

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After the independence the data for the physically handicapped persons in our country were collected against for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows

“The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both arms or both

legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms will be totally crippled, though the legs or arms as such are still physically present.

In case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example, if a person was both blind and dumb or blind and crippled etc. blindness was noted for him as blindness is considered as greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. In an extreme case where a person suffered from all the disabilities was taken under blind since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in district is given below

Physically handicapped form 0 16% of the total population in the district, comprising of 0 17% of rural and 0 09% of the urban population. Out of the total 2 303 persons recorded as physically handicapped i e, totally blind, totally crippled and totally dumb in the district as many as 2,004 persons forming 87 02% are from rural areas only. Among the total physically

handicapped in the district 39 64% are totally blind, 34 61% are totally crippled and 25 75% are totally dumb. The survey revealed that Rajendranagar taluk has recorded the highest number of physically handicapped persons accounting for 367 persons, the lowest being Vallabhnagar taluk with 78 persons.

## **PART-B**

# **VILLAGE AND TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT**

**SECTION I - Village Directory**

**SECTION II - Town Directory**

**SECTION III - Primary Census Abstract**

## SECTION I

### VILLAGE DIRECTORY

Village Directory which provides village-wise information about the amenities and landuse pattern in the villages consists of columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8 10 11, 13 16 and 20. The following codes have been used against the facilities available in the village

#### EDUCATIONAL (COLUMN No 5)

|    |   |
|----|---|
| P  | Primary or Elementary School<br>(Upto Class IV)   |
| M  | Middle School or Junior Secondary School<br>(Class V to VIII)                               |
| H  | Matriculation or Secondary School<br>(Class IX and X)                                       |
| JC | Higher Secondary/PUC/Intermediate/<br>Junior College  |
| C  | College   |
| I  | Industrial School   |
| TR | Training School   |
| AC | Adult Literacy Class/centre   |
| O  | Other educational institutions which in<br>clude Sanskrit Pathasala, Senior Basic<br>School |

#### MEDICAL (COLUMN No 6)

|         |  |
|---------|--|
| H,H(A), | Hospital Ayurvedic Hospital  |
| H(Hom)  | Homeopathic Hospital   |
| MCW     | Maternity and Child Welfare Centre or<br>Maternity and Child Health Centre |
| MH      | Maternity Home   |
| CWC     | Child Welfare Centre   |
| HC      | Health Centre  |
| PHC     | Primary Health Centre  |
| PHS     | Primary Health Sub Centre  |
| D       | Dispensary   |
| FPC     | Family Planning Centre   |
| TB      | T B Clinic   |
| NH      | Nursing Home   |
| RP      | Registered Private Practitioner  |
| SMP     | Subsidised Medical Practitioner  |
| CHW     | Community Health Worker  |
| O       | Others   |

#### DRINKING WATER (COLUMN No 7)

|    |                           |
|----|---------------------------|
| T  | Tap                       |
| W  | Well                      |
| TK | Tank                      |
| TW | Tube Well                 |
| HP | Hand Pump                 |
| R  | River                     |
| F  | Fountain                  |
| C  | Canal                     |
| L  | Lake                      |
| S  | Spring                    |
| N  | Nallah                    |
| O  | Others                    |
| NA | Information not available |

#### POST AND TELEGRAPH (COLUMN No 8)

|       |                           |
|-------|---------------------------|
| PO    | Post Office               |
| TO    | Telegraph Office          |
| PTO   | Post and Telegraph Office |
| Phone | Telephone Connection      |

#### COMMUNICATIONS (COLUMN No 10)

|    |                    |
|----|--------------------|
| BS | Bus Stop           |
| RS | Railway Station    |
| NW | Navigable Waterway |

#### APPROACH TO VILLAGE (COLUMN No 11)

|    |                    |
|----|--------------------|
| PR | Pucca Road         |
| KR | Kaccha Road        |
| NR | Navigable River    |
| NC | Navigable Canal    |
| NW | Navigable Waterway |
| FP | Foot Path          |

#### POWER SUPPLY (COLUMN No 13)

|     |  |
|-----|--|
| ED  | Electricity for Domestic purpose                                     |
| EAG | Electricity for Agriculture  |
| EO  | Electricity for Other purposes like indus-<br>trial, commercial, etc |
| EA  | Electricity for All purposes listed above                            |

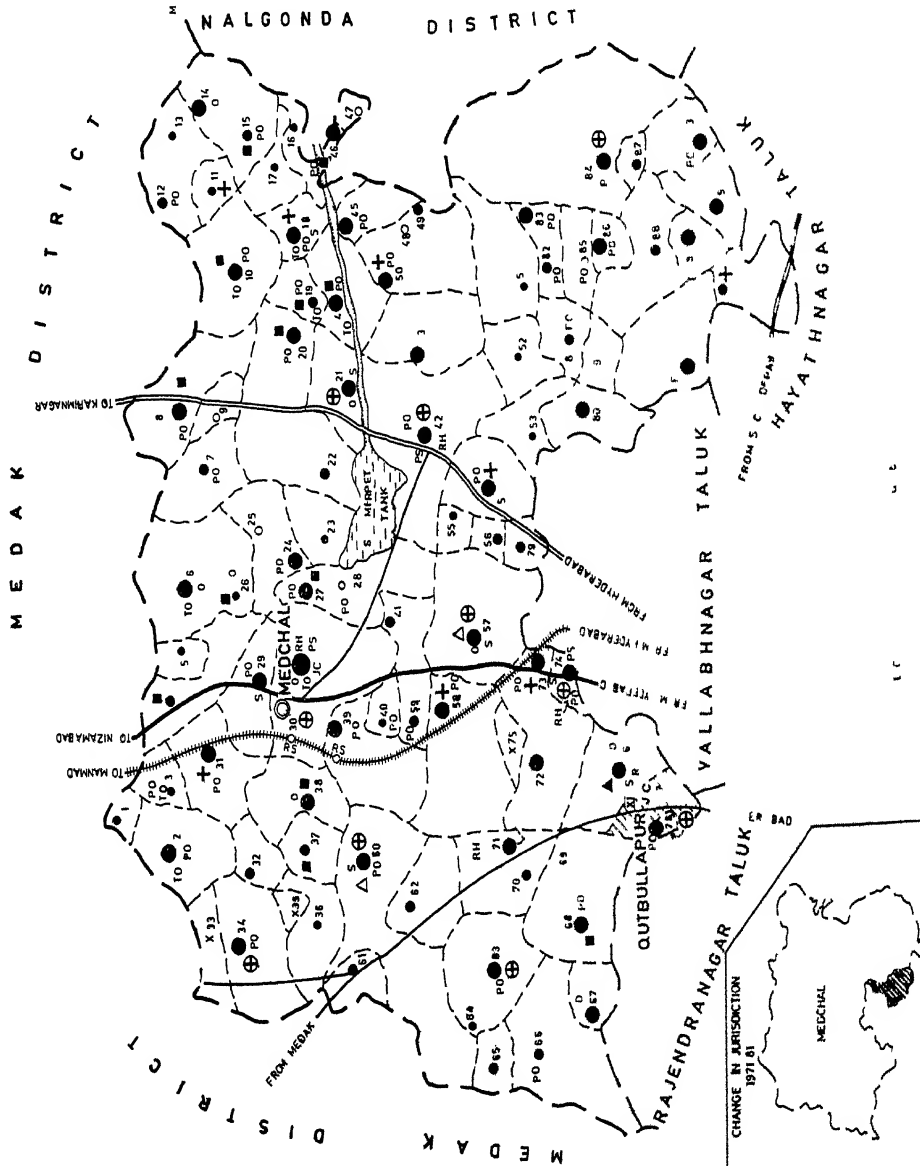

IRRIGATED BY SOURCE (COLUMN No 16)

REMARKS ETC (COLUMN No 20)

|     |                                 |   |  |
|-----|---------------------------------|---|--|
| GC  | Government Canal                | N   | Copies of the News Papers<br>(Coming in the village) |
| PC  | Private Canal                   | M   | Motor Cycles/Scooters                                |
| W   | Well (without Electricity)      | C   | Cars/Jeeps   |
| WE  | Well (with Electricity)         | T   | Tractors   |
| TW  | Tube Well (without Electricity) | <p>As an example an entry showing figures like P(2), or D(2), or T(35 21), (TK 35 21) would indicate that the village has two primary schools two dispensaries extent of total irrigated land in the village is 35 21 hectares and extent of land irrigated by water from tanks is 35 21 hectares</p> |  |
| TWE | Tube Well (with Electricity)    |   |  |
| TK  | Tank                            |   |  |
| R   | River                           |   |  |
| L   | Lake                            |   |  |
| WF  | Water Fall                      | <p>Where a facility is not available in the village the distance at which the facility available is shown in broad ranges viz, -5 kms, 5-10 kms and 10+ kms of the nearest place</p>  |  |
| O   | Others                          |   |  |
| T   | Total                           |   |  |

# SECTION II

## Town Directory

## SECTION II

### TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in Statements are briefly explained herein. Statement I has been compiled in this Office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col 2 to denote the civic status of town the codes used are

|  |        |
|--|--------|
| Municipal Corporation / Corporation                          | M Corp |
| Municipality   | M      |
| Cantonment Board / Cantonment                                | CB     |
| Notified Area / Notified Area Committee / Notified Committee | NAC    |
| Gram Panchayat / Village Panchayat                           | P      |

In Statement IV Col 6 to differentiate category of road the following abbreviations are used

|             |    |
|-------------|----|
| Pucca Road  | PR |
| Kuccha Road | KR |

Under Col 7 to specify the system of sewerage the codes given are

|                     |     |
|---------------------|-----|
| Sewer               | S   |
| Open surface drains | OSD |
| Box surface drains  | BSD |
| Syck drains         | SD  |
| Cesspool method     | CD  |
| Pit System          | Pt  |

In Col 11 the various prevalent methods of disposal of night soil are given with the following codes

|                      |    |
|----------------------|----|
| Head loads           | HL |
| Baskets              | B  |
| Wheel Barrows        | WB |
| Septic tank latrines | ST |
| Sewerage             | S  |

Under Cols 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows

|                            |     |
|----------------------------|-----|
| Overhead tank              | OHT |
| Service reservoir          | SR  |
| River infiltration gallery | IG  |
| Borewell Pumping System    | BWP |
| Pressure tank              | PT  |
| Tubewell Water / Hand pump | TW  |
| Tap Water                  | T   |
| Well Water                 | W   |
| Tank Water                 | TK  |

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town

In statement V under Col 4 to indicate the type of medical facility available to the citizens, the following codes are used

|                        |    |
|------------------------|----|

| Nursing Home | NH |
| Others       | O  |

If there are more than one institutions of any type the number of such institutions is noted within brackets eg D(2) NH (7) etc

To distinguish the medical institutions as Allopathic or Ayurvedic or Unani or Homoeopathic the following additional codes are used

|              |     |
|--------------|-----|
| Ayurvedic    | A   |
| Unani        | U   |
| Homoeopathic | Hom |

In case of allopathic no separate code is used The information on medical facilities is presented horizontally in the same line as illustrated below

H(A 1, 2) D (Hom -2, U-1)

Here H (A 1 2) represents one Ayurvedic and 2 Allopathic hospitals and D (Hom 2, U 1) represents 2 Homoeopathic and 1 Unani Dispensaries

The Codes used for the Col 6 are as follows

|                            |     |
|----------------------------|-----|
| Arts only                  | A   |
| Science only               | S   |
| Arts and Science only      | AS  |
| Commerce only              | C   |
| Arts and Commerce only     | AC  |
| Arts, Science and Commerce | ASC |
| Law                        | L   |

If there are more than one institutions of each type the number is given against each in brackets

Under Col 10 the following codes are used to specify the recognised short-hand typewriting and other vocational training institutions If there are more than one institutions of each type the number is given against each in brackets

|                         |         |
|-------------------------|---------|
| Short hand              | SH      |
| Typewriting             | Type    |
| Shorthand & Typewriting | Sh Type |
| Others                  | O       |

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B Ed College, Teacher s Training institutes, Music/Dancing School, Nursing School etc , are covered under Others

Schools upto class IV are treated as Primary or Elementary Schools These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre primary Schools Schools upto Class VIII are treated as Junior Secondary or Middle Schools Schools upto Class X are treated as Matriculation or Secondary Schools Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/Intermediate/Pre University/Junior College etc

Under Col 20 the abbreviations given are as follows
